You may have seen long purple robed monks and nuns walking softly and respectfully across Mother Earth, speaking very little, always carrying a greeting of Peace...

You may have seen purple veiled renunciates traveling through city and countryside in purple vans and step vans with bumper stickers carrying the message, "May Peace Prevail On Earth – The Purple People"...

Perhaps you have experienced entering into establishments where the walls inside and out were graced with the color purple, the air filled with delicate fragrances, shelves filled with books, recordings and more – of a metaphysical/esoteric nature, and all kept diligently clean and in order by purple veiled attendants (whom you may have also witnessed prostrating at the sight of their Spiritual Master)...

Or maybe you have walked up to purple draped outdoor tables surrounded by an aromatic vibrance – on which were displayed art crafts made at the Monastery, along with an interesting array of incense, oils and more...

And even now, while traveling through the midst of this virtual reality called cyberspace – arriving here at *The Purple People Place* in space...

...and wondering who are *The Purple People*,
where are they from,
and why in the world (and in truth beyond)
do they wear the color purple?

We Offer You a Glimpse of this Truth

Reverend Baba Nazirmoreh K. B. Kedem (All Blessings and Respect Due) is the Founder, Spiritual Head and Director of Nahziyah Monastic Community and the Nazir Order of the Purple Veil. Since beginning time, the Reverend has brought forth Universal Truth Principles (which in this current time dispensation are also called Ancient Wisdom Teachings). As Reverend Nazirmoreh (A.B.R.D.) teaches one and all, "Live the Life, and you will know the Doctrine, the Love". The purple robed mendicants are direct students of Reverend Nazirmoreh (A.B.R.D.), full time live-in members (for the most part) of Nahziyah Monastic Community under the direct direction of Reverend Nazirmoreh (A.B.R.D.), and have been initiated into the Nazir Order of the Purple Veil by Reverend Nazirmoreh (A.B.R.D.). *(Please note: There are different levels and degrees of membership and participation.)* And the items offered at various locations and times as cited above - are integral services of Nazir Art Crafts - established by the Reverend to support, maintain and sustain the Community's efforts to serve and to be of service.

True to life long vows (and a sign of this vow) - we first, foremost and always proclaim Reverend Nazirmoreh (A.B.R.D.) as our Spiritual Master.

Please be aware - there are and have been those who profess, take on the title, and perhaps a variation of appearance... but have not nor do not adhere to the strict disciplines brought forth by living the Life under the watchful eye of the Master -- the disciplines, the Life, the feeling, the Knowing, the actions, the aura which prompted the one professing to bear the name (and in name only) yet not taking the initiative to receive Initiation. Therefore, when coming in contact with a "purple people" (or other member or association), it is advised that proper channels be followed to insure that one has in Truth come in contact with a member of Nahziyah Monastic Community/The Nazir Order of the Purple Veil, with "THE Purple People". *(Pay close attention to their wrists...)* To verify, please contact the main headquarters - Nahziyah Monastic Community - Retreat for Meditation and Holistic Living. The address is given on back cover. Thank you.

Why do we wear the color purple?

The color purple is a color of the highest spiritual vibratory rate. This is the color of the age of enlightenment, the age of Universal Consciousness, the age which the world is now embarking on. With far reaching vision, Reverend Nazirmoreh (A.B.R.D.) envelops the Community in this purple vibration - an aura which is conducive to, assists in, and embraces the Direction, the Goal.

The Reverend teaches respect for all Life, that there are many paths, which lead to the same Goal... that we are all fellow travelers -- different degrees, different levels, different grades; some traveling swiftly, others more slowly, still others taking detours along the way. No one path is the only path, or the only right path. One of the fundamental Truth Principles brought forth by Reverend Nazirmoreh (A.B.R.D.) is that we are One -- beyond the body, beyond the mind, beyond the mundane/physical/mental/programmed/conditioned illusion of separation. That we are not the body, we are

not the mind, we are not sex, race, nationality and so on. That we are everliving, everlasting Spirits taking on these appearances to gain through that particular experience, to learn and to grow beyond the experience... there are always heights ahead — different degrees, different levels, different grades. We are all fellow travelers.

Nestled in the Ozark mountains is the Reverend Baba Nazirmoreh's (A.B.R.D.) Monastic headquarters: Nahziryah Monastic Community - Retreat for Meditation and Holistic Living. Here at the Monastery, the Reverend has established The Veil of Truth Omniversity Libraries - Center for Metaphysical and Esoteric Learning; extensive organic gardening (which supplies a substantial portion of the Community's vegetarian/vegan (non-dairy) dietary needs; intensive recycling; scheduled retreats and visitations to the Monastery; daily, weekly, monthly, seasonally and as need be maintenance/remodeling/expansion projects; various fund raising activities (donations accepted, not required)...

Transmissions and Communications of the Reverend and All, in All

Let it be understood that Nazirmoreh is not the average, ordinary normal person. Not interested in selling information, knowledge, teachings for monetary gain or gain but to do the work for the works sake, the service, not for reward. Let that be fully understood.

And not understanding this or accepting it through Nazirmoreh's word is a show of your degree of understanding, not knowing, resistance to knowing - programmed/ conditioned/ crystallized consciousness, not perceiving, not seeing, not feeling, knowing who, what and why Nazirmoreh is.

You must always remember and know that you carry your world around with you, wherever you go, within your heart, within your mind, your actions, your reactions. Think, feel, see and know - expand, develop, grow, do not resist - assist.

You must see it, be it, to free it...

There are those that do not want to see it, be it, to free it...

Do not seek to, speak to, confuse or you will lose. You will lose by not speaking that which is right, your sight, your might. You will not be able to make the flight. Above - in Love

My name is Meghan and I'm 18. I live in Santa Monica California. I'm looking for a change for my life. I want to be close to nature and help plants and animals. I'm looking for a hippy commune more or less :) I'm not sure if you guys are one or not. I'm looking for a place where everyone loves each other and respects nature and animals. I want to live in a place where people live and let live.
Please write me or call me
Meghan

Peace be with you Meghan,
Received your transmission, your call. You must be prepared to give your all when you hear, when you accept the call.
Meghan, Love is not a passing fancy... it is everlasting. It is beyond the body, beyond the mind. It is sublime. It interpenetrates the body, the mind, all existence.
A change of life to help nature and animals is not eating the little ones, through the thought of love and compassion for all beings.
This is a commune, community, monastery, ashram... where we strive through continuous compassionate, loving effort to transcend our conditioned, programmed limitations during this mundane, physical, material, cyclic experiential journey toward living the life, knowing the love - rising above through that love. Ascension, consciousness expansion, further spiritual development and the service toward the consciousness expansion and further spiritual development throughout all existence.
The term stated "hippie", which is your direction, your feeling, your knowing - attuned to your degree of awareness, has been a part of our Master Reverend Baba Nazirmoreh's (ABRD) travels since beginningless time - thus our travels. Title, being, inner knowing - life experience, showing, reaping and sowing and through this eternally knowing, glowing. This has been a part or an episode or experiential degree in our travels. However, we have gone beyond the title - knowing that titles are titles and those that travel in the titles are loved, honored and respected. We are one. As above, so below. Live, walk, love and know. Show what you know through your life living.

Peace be with you BrotherLittlestar,

We have no pets, no cats, no dogs, no domestic animals. There are animals living in area, according to their

natural environment or habitat. We do not bother them; they do not bother us. Sometimes they bother the garden, most times we commune with each other in truth, in light, in love. We Are One... traveling at different stages of our consciousness expansion, further spiritual development, evolutionary journey. No smoking, no drinking, no drugs - not even aspirin. That's great! exactly the lifestyle I practice, advocate, and seek in community!

another Q.—> I do love and appreciate spirituality, I hope the Universal Oneness feeling includes some kind of eclectic respect for the freedom to not have to conform to any one specific dogmatic form.

For example, i myself am an initiate of Thakar Singh and do Inner Sound and Light Meditation. a friend of mine, a master-gardener specializing in orchards/fruit-tree planting and care, name Michael TreePlanter [to whom I've sent a cc-copy of this email to], to facilitate linking you 2] is also an initiate of Thakar Singh and also seeks similarly pure community.

Your land in AZ [Arizonia] is what elevation? and thus has what kind of winter weather? lowest temps? below freezing? 32-degrees fahrenheit? grows what kind of fruit trees? good soil? water-sources? air-quality? pollution from nearby cities/ or more rural and removed? above the smog-line/level due to some elevation?

Do you know anyone/group(s) with similarly pure community happening in Hawaii Islands or California/Pacific Ocean Coast???

Do you presently have openings at your community?

May I telephone your community? [I can call direct with my calling card.] Please y'all email and/or call me with your telephone, because I have a calling card I'm happy to use to call you my kindred spirit friends into the vegan and toxin-free sacred lifestyle!

I feel somewhat attached to fresh air here on coast with rain to make trees that filter air and photosynthesize with green leaves. however, possibly for the right community...? or I could at least visit for a month? May I have permission to travel there with one or more friends? perhaps November/December/Jan/Feb/March if it's too hot other months if it's low elevation????

[of course, if I ever ended up living there, i'd deal with the heat be drenching clothing i wear with cool water and working the garden like that, emphasizing fruit trees for they make shade and create an atmosphere.]

thanks for communications. the AZ community WindTree Ranch with 1200+ acres near Mexico border hasn't responded yet via email, do you have their phone?

Are men/women allowed to be a couple at your Nazir community?

Are there families/children??

Peace, Blessings, Love brother little-star*

Peace be with you Powell Rob,

The Reverend Nazirmoreh (ABRD) has received your transmission, your inquiry, and thanks you very much. The Reverend said:

At this time can tell you nothing concerning the people/location you have referred to. It/ they appear not to be in direct contact with Reverend Nazirmoreh K. B. Kedem/Nahzirya Monastic Community/Nazir Order of the Purple Veil.

Powell, They appear to be walking as to the direction. At present there are purple people all over the world. We can no longer exclusively claim the title. However we *can* say that they are not initiated members - in direct contact with the Nazir Order of the Purple Veil- the Initiated Initiates by Reverend Nazirmoreh K. B. Kedem into and of the Nazir Order of the Purple Veil. All are making the effort toward the goal... living the life, knowing the love, we pray, rising above, in that love through that love. excerpt from
Chant-Prayers to All Thru Nazirmoreh (1970-1981)

Upon entering the living space of Nahziryah Monastic Community many, many years ago, one was greeted with such mystical lyrics as the one above - playing softly within a background of incense, pillows and eastern rugs. These recordings, of an ancient season, had been spontaneously sung into being by Reverend Nazirmoreh (All Blessings and Respect Due) - *(they were recorded without the Reverend (ABRD) being aware at the time of the recording, in the students' efforts not to disturb the Reverend's (ABRD) flow)*. These Chant-Prayers were blended with sitar and other string and wind instruments, rising and ebbing to the pulse of a solitary drum.

Through the sojourns of the Community over the decades hence, experiences presented themselves claiming all but a few of these particular recordings. However, one of Reverend Nazirmoreh's (A.B.R.D.) students had been given the responsibility of inscribing them on the medium of paper, early on. These testaments have since been titled Chant-Prayers To All Thru Nazirmoreh (1970-1981). We hold them dearly, as they are of a rare, illuminating air.

Reverend Nazirmoreh (A.B.R.D.) walks an oral tradition. Few precious words have followed ink to paper. To preserve more of the teachings along this latter line of communication, to be of service to those so attuned though not within ear's reach of Reverend Nazirmoreh (A.B.R.D.), permission has been granted in recent years by Reverend Nazirmoreh (A.B.R.D.) to record on tape some of the innumerable lessons Reverend Nazirmoreh (A.B.R.D.) has given to those in search. And in recent times, Reverend Nazirmoreh (A.B.R.D.) has given instructions to begin the Nahziryah Monastic Community's "The Book of" series, to which this is one.

The teachings presented in this book, The Book of The Words of Reverend Nazirmoreh (A. B.R.D.), have been gathered from 3 sources - the rare taped recordings of Reverend Nazirmoreh's (A.B.R.D.) talks; the written declaration of "The Nazir, The Community" from The Book of the Order (another in the series) - a landmark writing dictated by Reverend Nazirmoreh (A.B.R.D.); and the resplendent Chant-Prayers To All Thru Nazirmoreh (1970-1981). All excerpts have been transcribed verbatim - exactly as Reverend Nazirmoreh (A.B.R.D.) spoke/sung them - to preserve the natural flavor of Truth. The stream of consciousness found flowing through the quotations taken from the above 3 sources (recorded, dictated, and sung compositions of Reverend Nazirmoreh (A.B.R.D.) have poured into the pages of this laconic volume, blending one with another, expressing the Oneness of their Source.

We pray this offering finds a place in your heart.

 "The Book of Series"
 Booklet publications

Brought forth and published here at the Monastery -
 under the direction of our Beloved One, our Beloved,
 All Blessings and Respect Due
 Reverend Baba Nazirmoreh KBK (ABRD)

Though small in size, these booklets hold a vast supply of information for one's consciousness expansion and further spiritual development. Flowing into many levels of meaning – these publications are filled with a direct potency, painted with mystical hues of poetic utterances, flowing ever onward with practical views for the thoughtful, taking flight on wings of paradoxical inspiration. As Reverend Nazirmoreh (ABRD) teaches– “*We are on an infinite journey, there are always heights ahead...*”. Gathered from direct quotes of our Beloved Master, letters to our Beloved Master, glimpses, poetic manifestation/transmissions/ projections directed towards consciousness expansion and further spiritual development, writings, meditation session salutations, Nahziyah Monastic Community informational flyers, and many more sources – these teachings of our Beloved Living Spiritual Master Reverend Nazirmoreh (ABRD) are blended into little jewels sparkling with lessons in life living.

Our Beloved is here with us to stay. Our Beloved will never go away. The Loved Ones will never go astray. We are all here to pay, to stay in the straight way - the service towards the consciousness expansion and further spiritual development throughout all existence. You get what you are, you get what you pay for. What you are is the plane of consciousness you're traveling on. You get according to your experiential need, related to your level of consciousness or degree of awareness. The pay is the effort you put into utilizing the information received through experience, direction, information, impartations, teachings, inner knowing, and showing that knowing through life living that is conducive to your higher consciousness expansion and further spiritual development.

Reverend Nazirmoreh (A.B.R.D.)

excerpt from "All in All" from
Chant-Prayers to All Thru Nazirmoreh
(1970-1981)

...that's what the service is - to assist - open up the gap for the energies to come in - stimulate, agitate different centers, chakras, centers of consciousness or being. Many people say, 'What's going on here? I'm used to this and this. And this is my programming and this is my conditioning. But I see it's something else going on here. I am attuned to it, I see it, I recognize it, I feel it. Why do I feel that way when I, you know, walk this way, or go that way, or , you know, walk this way, or go that way, or you know, get over there, or go over there. Why do I feel that.'. Then you begin to question your regular pattern of conditioned programming. And you begin to look and seek for higher energies, vibrations - for a place that would be more conducive to your further growing, or knowing. When I say growing --- knowing. And the knowing and knowledge is within you. But still, it has to be a conducive atmosphere, energy, vibration, you see, thought, plane, to help to support and to raise that within you to a higher level of your mental awareness, understanding...

...We're not trying to clean up the world, or anything else. But we're just trying to give our little bit, you see, little share of input in the overall total whole by saying
this is our order...

II. The Anointing

The following excerpts are HighLights from The Book of The Order: A document set forth and anointed by Reverend Nazirmoreh (A.B.R.D.) concerning the constitution of our Order - the spirit, life, continuity, code of conduct of the Nazir.

Nazir: A separated dedicated one; consecrated by vow; abstinence; set apart by choice. Devotion.

A Nazir signifies what the meaning of the word (consecrated by vow, separated) implies. The thoughts consecrated to truth; to Life holy, sanctified, free from worldliness and from belief in error, destruction, death...

The Nazir is a servant of the Divine Essence of All. A spiritual pathfinder to the spiritual Life of Universal Law, the Nazir have great respect for Universal Law and are ever ready to be of service to those who exemplify Universal Law. As in the ancient days, they assisted those who upheld Universal Law...

The Nazir form close monastic communities from which contamination and impurity can be excluded and where the utmost simplicity of living and moral discipline could overcome material and fleshly temptations. They prepare places in quiet environments where they may bring like Spirits to carry on the spiritual way of life, abstaining from worldly life. Undertaking to separate themselves from unrighteousness, to distinguish between clean and unclean, spiritual and worldly. To love each of the Nazir of the Order as himself and to care for or assist the poor, the needy, and the traveling Nazir (all spiritual seekers) that are true to the spiritual way of life...

The Light of Wisdom and Knowledge is of the Divine Creative Essence, which is revealed to all creation. Let them that are desirous of this knowledge clear their mind from worldliness - especially pride, which is an abomination to spiritual consciousness and the gate to the lower consciousness. Let them frequently be in prayer (devotion), meditation and work; have little to do with the worldly; abstain from too much company-keeping, and enjoy constant tranquility, that the mind may be able to reason more freely in private, and be more highly lifted up. For unless it is kindled with a beam of spiritual Light, it will hardly be able to penetrate the inner mysteries of Truth...

These Truths of Nature, and also those of the Spirit, are open to all who truly seek, but cannot be obtained by a mere acceptance of the Word. Works alone; The Way, leads to their unveiling. One must first obtain a knowledge of their Higher Self and an obedience, by thought, desire, and act, according to Universal Law. To seek is to become. Knowledge, Wisdom... is the result of living; by living, man becomes. Through all times there have been Nazir communities - some large, some small, who gave their whole life to the search for Wisdom and Understanding, that man might rise to a higher spiritual awareness. Many Nazir engaged in this most holy work man can do - the redemption of themselves from the purely carnal or mortal into the greater spiritual, and succeeding in this, be able and capable of pointing out to others the way, so that all men in time may redeem themselves and as the Books promised - become one with their Divine Essence.

*Blessings and Thanks to our Spiritual Master
Reverend Nazirmoreh (A.B.R.D.)*

Collective Effort

...And these are things that have happened to us, you know, whereas we get to the point whereas we can't trust each other, respect each other, or love each other enough to really grow together for the benefit of each other, for the benefit of helping each other and all existence...

...And the reason this Community was formed was a collective effort. And in that collective effort, be it man, woman, child, community, there must be cooperation, and so on forward...

...The Divine Essence of All That Is, Was, and Ever Shall Be has blessed us to be together and to make it work, you see. We give thanks and we give praise for the little bit that we are doing, that is working, you see. And I know related to our lives, anything could turn upside down tomorrow. But this is today, and we give praise and we give thanks for that. And the most we can do and the best we can do is to work diligently and hard

III. The Teachings

Part 1

Consecrated by Vow

...Oh make my heart strong
That I may do all those things
That will bring me close to You
The things that my mind knows
Oh my heart knows
Oh may all the things
that will make me go thru
All those things that keep me away from You
Oh all the things that are true
Oh the things that are You
Oh get me thru
The things that are not of You
Oh let my mouth
Let my heart
Let my hands
Let my feet
Let all that is of me
be true to You
Do the things that I should do
That will make me
Oh walk with You
Oh talk with You
The way I used to do
Oh when I was with You
I walked with You
I talked with You
I knew You
I was of You
You made me free
You made me to be with You
Oh let my heart sing
Oh let the words that I sing
be of You.

excerpt from Chant-Prayers to All Thru Nazirmoreh
(1970-1981)

*Keynote to students
of Reverend Nazirmoreh (A.B.R.D.):*

"You get what you are, you get what you pay for. What you are is the plane of consciousness you're traveling on. You get according to your experiential need, related to your level of consciousness or degree of awareness. The pay is the effort you put into utilizing the information received that is conducive to your higher consciousness expansion and further spiritual development."

The Profession

...whether you put it in a newsletter, on a bulletin board. If you're not living it, you're not telling the truth. Or, if you're not making an effort to live it, to live your profession, to live what you profess to be, to live what you profess to study, discipline, put effort toward, to live and make the effort to accomplish the goal. And the problem with a lot of people, places, things, is everybody has their professions. And they say, 'I'm this, I'm that. I'm doing this, I'm doing that. I'm doing this, I'm doing that', you know, 'I meditate, I pray, I study, I go to church', or whatever - and they don't live according to the principles. They don't live according to the principles, and when they make a mistake, they try to excuse it, cover it up, deny it. They don't look at it and say, 'True, this is not attuned to the principles. This is not attuned to what the Preacher said behind the pulpit yesterday. This is not the message I received during my meditation. This is not the vision I had and I wrote it down, and I tried to bring it to someone else, to help them straighten their life out.'. It's swept under, ignored. And it gets rather difficult, and Nazirmoreh has to be somewhat tyrannical sometimes, scolding, impassionate, and things like that, to try to drive something like that to someone. And we talk about Love. And we should give in Love and receive in Love. You have to go through changes to change. All those little sayings mean something...

Truth

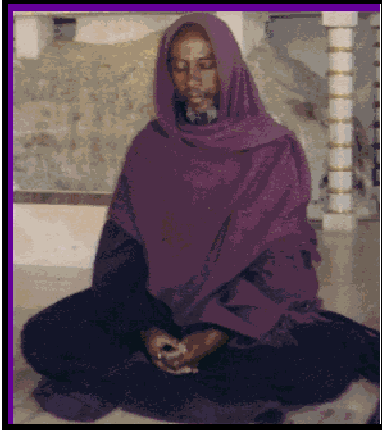

...and a lot of times what happens when things come to you, they come to prepare you for it, to let you know. And a lot of times you just blot them out because you don't want to know. You don't want to know, you don't want to be aware of that because sometimes it's too painful. So you don't want to know. I mean that's with Truth or anything else. You start bringing forth Truth - they say ignorance is bliss. So you'd rather live in your blissful ignorance than some Truth be dumped on you to make your life harder, because you want to do what you want to do anyway. And if somebody says, 'Oh, you can do this better...' --- 'No, no. I want to do it the way I want to do it. This is the way I see it and that's it! Now, don't give me any problems...', you see. And that's how Truth is on a higher plane...

Selfless Service

...But we know that it's not all happening out there, or what is considered out there. And the approval is not all out there, or the acceptance is not all out there, or the understanding. It's just work to be done. Selfless service...

Blessings and Thanks

...That's going to another level, because you have helpers anyway. (*excuse me?*) You have helpers anyway. You're just not totally aware of all of them. You know just like you're saying, all Truth, Light, and Love dwells within you. And that's true, it dwells within all beings and you might have gotten a little spark of it, or understanding of it, or attuned yourself to it related to your degree of awareness, your experience. But still you've got helpers traveling on your plane of awareness that have gone further than you. And then you have them on all different planes of existence, from the greatest to the least, serving and helping, you see. Sometimes you're not aware of it, you don't know it. You feel alone sometimes. You feel insecure sometimes. That's a part of your experience, but you're getting help all the time. Because you've reached that degree to receive that assistance, that support, that help, you see. You'll get through. (*Thank you Sir. Peace. Bless You. Thanks for Your Help...*)

Oh Brothers and Sisters
Go on, you must go the way
that you must go
Don't be slow, walk on
Oh you must be strong
You must walk on
Oh you must be strong
You must walk on
You must sing your song
Oh we've been gone too long
Oh let us return to where
we belong
You must be strong
Oh we must walk on
Thru the storm.

excerpt from "All Beings - Brothers and Sisters
from Chant-Prayers to All Thru Nazirmoreh (1970-1981)

Our Teacher

...And there is the title/name... Nazirmoreh.
That is the proper title/name within the Order...

...People try to label us because it is easier for them to do that. They can fit us neatly into the scope of what they choose to believe, related to their limited awareness and consciousness and never have to change. I am Nazirmoreh. I do not call myself a Buddhist, a Hindu, a Jew, a Muslim, or a Rastafarian, or any other religion one might want to categorize me as. I Am That I Am. What is my religion? All of them...

...People have a difficult time accepting someone so radically different. I know that. That's the way it should be. Only those who are open and ready to accept that there is more to life than what they are conditioned to believe will want to be near me. And that's the way I prefer it...

...So when they (members of NMC) get into titles, and everything else, and say 'This is our Teacher, we love Nazirmoreh, the head of our community. This is our Teacher.', you see. And we do enough and it is our best to try to keep, you know, a high ideal and a high image up. 'This is our Teacher...', you see. And to give Nazirmoreh that respect, you know, with all concerned...

E-mail Inquiry

(April 11th, 2002)

I was confused I will admit at first - (as you are called the: "Reverend"). Why is this, and can you explain this to me? Does this have something to do with your religion, etc? I am curious. You are in a monastic community? Is this Hindu, Buddhism... enlighten me, please? I personally am finding my way and walking a new path with the Muslim faith. I still have much to learn and am open to educate myself regarding other faiths.

Reverend Nazirmoreh (ABRD):

I am a Spiritual Teacher/Director toward the consciousness expansion and further spiritual development of all Existence, of all Beings - In Truth, In Light, In Love - at the level that one can see above.

I am called Reverend in this country. Swami, Baba, Sheik in other countries, as well as other titles/names according to country being communicated with or traveled in. I am not this body, I am not this mind, I am not the commonly accepted programmed conditioned crystallization in one area, at one degree of projection/information/direction/being. I am One with all Existence, all Being, all Beings, all Religions, Directions, Life Living - toward the consciousness expansion and further spiritual development of all Existence/ of all Beings transcending the limitation/crystallization/isolation/ of commonly accepted normality of programmed conditioned limitations/isolations/ego confrontation.

Awareness

...We're all unique units of the overall total whole and we all have certain missions and responsibilities and services to fulfill...

Inner Wisdom

A dear being to Reverend Nazirmoreh (A.B.R.D.) of many years, perhaps many lives, David Bernstein (whose law office and practice was located in the same building as, and next door to, the Veil of Truth Omniversity/ Center for Metaphysical and Esoteric Learning in New Orleans), related to Reverend Nazirmoreh (A.B.R.D.) that he was expanding his gift as a regressionist, and on one occasion (about 8 years ago - before the time of this writing in 1997) at the Veil of Truth, asked and was given permission by Reverend Nazirmoreh (A.B.R.D.) to do a past life regression. The following is a full recitation of the experience which unfolded that day...

(note: The Reverend (A.B.R.D.) being aware through observation that David would come into the Veil of Truth Omniversity prior to proceeding to important law cases - to attune to the energies, to utilize the energies - walking the circumference of the Omniversity, and after attuning- would leave to perform his services. David, a beautiful being, gave all the assistance that he could give Nazirmoreh (A.B.R.D.), the Order, the Service, the effort towards the consciousness expansion and further spiritual development throughout all existence - - a true and devout helper/supporter.)

(...the bubble is rising to the ceiling...taking You up to the clouds... count backwards ... drift in the direction where Your Inner Wisdom feels You should go ...7 ...6 ...5 ...4 now starting to descend, it's coming down, at 1 it will gently land on the cloud ...3...2...1...You emerge... can You tell me if You're indoors or outdoors) ... I can't tell yet... (things are becoming clearer as I count down 3 ...2 ...1 can You tell if You're in a male or female body)... male ... (and can You see what You're wearing) ... no ... (are you alone) ...yes... (how old are you) ...I couldn't say ... (can You tell me what You're doing) ... I appear to be laying down, and while I'm laying down, My Inner Self is ... leaving the physical body. It's going out of it ... (what's causing You to experience a physical death) ... I don't see anything other than that ... (and is it a peaceful experience) ... yes ... (I'm going to give You a moment just to go through this transition and experience it ... (let's go back in time now, to an experience during the lifetime You were just examining to see if there is anything useful to understand about that life. As I count backwards we're going to go into another experience during that life ...5...4 ...3 ...2 ...1 are You indoors or outdoors) ... I seem to be in the same spot ... (are You still experiencing the, going through the death, the physical death) ... somehow I don't feel as though it's a death ... (are You in bed) ... no, I feel as tho I am outside and I have risen out of the body. I can see characteristics of what I look like out of the body. And I see a long white beard and long white hair ... (and You're hovering above the body) ... I'm standing beside it ... (what are You feeling as You're standing besides the body) ... looking, just looking around. Just looking around. Seems like I'm trying to decide where I'm going to go from there ... (are You surprised to still be alive) ... no ... (do You know what sort of life You led) ... I'm wearing a long robe. I just see Myself standing there, in that appearance, with a long robe on, looking around ... (I want to pose a question to Your Inner Wisdom, and I will count backwards - what is the significance of this experience ...3 ...2 ...1 ...) ... I couldn't say ... (let's move on to another life, wherever it would be best to go. And I'll begin to count backwards.

When I reach 1 we'll be looking at another episode ...10 ...9 ... 8 ... 7 ... 6 ... 5 ... 4 ... 3 ... 2 ... 1 are You in a male or female body) ... male ... (are You a young man or old man) ... old ... (and are You alone or with people) ... alone ... (what are You doing) ... running ... (what does the land look like) ... forest ... (are you running for a reason) ... I don't know, I don't know the reason. But I seem to be trying to get away from something ... (do You know what part of the world You're in) ...no. It's a rain forest ... (what do You look like) ... long white beard, long white hair ... (what are You wearing) ... I get two pictures. A picture of a robe and almost the same figure that I had when I came out of the body. Then I get a picture of a loincloth ... (is this the same life that we were just looking at) ... I couldn't say ... (what do You do in this life that we were just looking at) ... I feel as though at the time I was a recluse. However, it seems as tho I had some connection with the outer world thru students or teaching. And that somehow I had stirred up the anger of, or the resentment of certain people of that time ... (could You tell who Your adversaries are) ... no, I just get a lot a pictures going thru My mind, different time periods, of different people ... (what do You teach in this life) ...peace, love, gentle teachings ... (are You part of a tradition) ... yes ... (and what tradition would that be) ... I couldn't say. I could just say that it's very ancient, since beginningless time. But I can't categorize it or put a label on it ... (do You have a library) ... I see a cave ... (what's in the cave) ... I see vague objects, but it seems as tho it's coming from suggestion. Maybe not totally from that period or that time, but things that I have experienced or that I have known from other times, other experiences ... (so there may be ritual objects in this life that You've known from other lives) ... yes ... (what sort of ritual objects are You talking about) ... I can't say ... (can You see who Your students are) ... (were You taught by someone in the life You're examining) ...I don't see Myself being taught ... (do You sense that this is an ancient incarnation, or something within the last 1000 years) ... same thing ... (let's move on then, to another significant experience either in this life that You're looking at or another life. You'll begin to drift, as I count backwards to, to another time, another place ...10 ...9 ...8 ...7 ...6 ...5 ...4 ...3 ...2 ...1 are You in a male or female body) ... male ... (and are You inside or outdoors)...I feel as tho I'm being called to an experience that I've been concerned about for some time ... (who's calling You) ... My Inner Self ... It seems as tho It's trying to give Me information or more understanding about an experience I went thru. And I can't tell whether it's just something that I've been concerned about and that I'm just bringing it into existence for that information, or if it is actually the true re-living of that experience ... (well, let's relax into it and see what it feels like. Become very relaxed and peaceful and clear ...5 ...4 ...3 ...2 ...1 what are You experiencing) ... laying ... laying ... (why are You laying down) ... ritual ... (how old are You in this ritual) ... younger man... (are You the only One going thru the ritual) ... no, there are Others. There are Elders. I'm the young One, I'm the only One that's laying down. I could see Them, but My eyes are not open. I'm not open - eyes ... looking at Them, but I see Them. And They're dancing. They're not dancing, but like, doing dance movements, but floating. They seem to be floating above the ground. And the floors are like a deep, dark marble - and you can see reflections in it. And They're like dancing around the floor in circles. Floating with long flowing robes, garments. And They're making different hand gestures and signs as They dance. I hear sound, like a sound - but movement. Nothing harsh. It's smooth, like a wind sound ... a wind. Not a breeze, but a whoofing like, whooff, whooff, whooff - as They move or as They dance ... (is this a hard surface, a hard marble surface You're laying on) ... could be a coffin, a box, or a table, a slab. I can't say exactly ... (and They're circling You) ... They circled Me and then They're just dancing

all over the room. It's like a temple, or a shrine. And it's not well lit. It's got a very deep ... deep, dark vibration, or a look to it. But I can still see everyone. I can see reflections on the floor, like the floor was a mirror, a glass but a dark reflection ... (what sort of powers are They invoking, or prayers They're reciting) ... chants. It seem like a, a joyous occasion, a love energy. Doesn't seem to be negative at all. It seems to be positive, happy, joyous but not ... not gaiety, it's serious. But it's somber, serious, but not sad and fearful ... (what sort of ritual is it, what transformation are You undergoing) ... it seems like a resurrection. A raising of degree. What you might call an initiation ... (are You undergoing this because of a particular reason ... is this what young men go thru in Your stage of life) ... no ... It's because of a - mission ... a preparation ... (do You recognize what civilization You're in, or what tradition You're in) ... robes, flowing robes - - - that as the dance is going, you could see the wind and the air and the robes flowing, swirling ... (do You see any colors) ... it appears to be, which I'm not too sure, that they could be purple or black or indigo ... (are the Elders wearing anything on Their heads) ... yes... (what does that look like) ... turbans. It appears that They're wrapped in a way that they cover the sides of the faces. It seems as tho it's like what I might recall seeing, say in this lifetime, but it's more ancient ... (can You tell me something about the period You're living in) ... no ... (do You live in the temple) ... I did, but I was getting ready to leave the temple ... (why were You leaving) ... to go on a responsibility, or a mission ... which I had been prepared for ... I see something else happening now. Later on, it's like it jumped from one scene to another ... (what's the scene like that You're now observing) ... I'm in a box, like a coffin. And I was presented with a garment as I was suppose to come forth out of the box and choose the garment that I would wear as I went on my mission. And it was like a choice as to which one I would wear. And it was a black garment, a long robe, and a white robe ... (what's the significance of the black robe) ... it appears as tho it would have been, and it seems like at the time I wasn't too sure, but it was like whether it would be, whether I would walk in secret or whether I would be walking openly. And One of the - there were Two Initiates there of those that were to offer Me the robes or the choice. And One was trying to, to say, convince Me, or how I don't know, it seems as tho He was more or less pushing this one forward more, the black robe. But I didn't want it. I wanted to choose the white robe ... (which one did You choose) ... the white one. And when I chose it, They smiled. But the other One seemed to be in more authority and... He was almost to the point of asking, or wondering His Self, as to why the other One was trying to persuade Me subtly or whatever way, to take the black robe. But when I chose the white one, it seemed Everybody was satisfied. It didn't seem to be any, any, anything concerning it. I felt kind of urgent about it because I felt as tho a choice was being infringed on Me, or what have you, but I didn't want to accept ... (do You know why He was trying to persuade You to choose the black robe) ... it seemed as tho He was testing Me for something ... (is this, this choosing of the robes, is this something that was part of the ritual that we were looking at earlier) ... It seems as tho they were interconnected. This was like the, the, a part of what had preceded, a while after, but there were other things in-between that ... (did You have to stay in the ritual coffin very long)... that was the, - that appeared to be the time I was getting ready to leave the coffin, but I don't know exactly how much time was in-between that period, or how long I had been in it ... (well, let's focus on some, let's look at, - I want to present a question to Your Inner Wisdom,

which You may want to just meditate on it for awhile, the answer may come later. But the question is why, why is it important to look at this ritual. What significance does it have to You now in this life) ... I feel that it was a part of the preparation that I had went thru in previous experiences to do some of the things that I am to do during this lifetime ... (and I'm curious, how did the Initiates choose You. What were the signs) ...I could say that it was not like a choice, that They chose Me from outside of the Order or the Initiates, or a choice. It was just that I was there - inside, and it was for Me to do rather than, say, being chosen to do it ... (perhaps my question was whether They simply knew, or how did They know that You were One of Them) ... because it appears or it seemed to Me that They knew I was One of Them because I was. And it's a thing whereas we in, say in certain lifetimes or certain social, cultural or educational experiences, tend to want to intellectualize things and ask for, I would say outer type credentials in the form of certain intellectual actions or understandings, or even documents or credentials ... (did They know before You were born) ... They knew, let's say, in the inmost of Our spiritual energy, that Our energies are the same. And thru that energy, or that vibration, or that feeling, there's a knowing that the mind can't express to someone that is looking for an intellectual understanding of what that feeling or knowing is ... (are You still connected with the other Initiates in this life) ... yes ... (going back to the life You're examining, did You live a long life) ... I couldn't say. I feel as though it never ended. That this life is a part of that life ... (did You have students in that life) ... I feel ...like I did, but I couldn't say definitely. I just have a feeling ... (did You have a particular role or function in the temple) ... when you ask questions like that, it's like my consciousness be shhifffting. It's shifting into different periods, or different times, or different lifetimes. I don't know which the situation might be, but it's like going into different functions or different activities or responsibilities. And I couldn't say exactly what it was at that time ... (is the tradition that You were in, does it feel familiar, like You may have gone thru that tradition many lifetimes) ... the tradition ... I look at the tradition all the time as not being a tradition as far as culture or body or a physical tradition ... but a tradition of the Spirit Essence, which I would say is all traditions. And it expresses Itself thru all traditions. And I find Myself more close to that Spiritual Essence that channnges as far as mundane activities are concerned. But on a spirit plane or a spirit reality or essence, it's all one energy or if you would care to say one tradition, which I just can't bring Myself to put it in oneee... (I understand. The decision You made in that life, does it have ramifications beyond that life) ... somehow I find Myself running thru the forest again ... (what connection do You make) ... it seems as tho the choice, which is not a choice that would be regretted, but a choice that had to be. And it was the right choice. However, I feel that Me or Those that know, understand that, however, in the world that we're working in, there are those that don't understand or can't accept, who will make it difficult, thru their lack of understanding, or what appears to be difficult, for you to do what it is you have to do. And that is connected with working in the open a lot, whereas at certain times it appears to be not conducive to your mental or physical well-being or peace or happiness. And momentarily we might feel disturbed by the non-acceptance of those that do not quite understand what it is you are trying to, to say or to express or to present. So we feel sad or disturbed, periodically ...even threatened. But we know beyond the body and the mind, and we continue. Because we know that it's not all happening out there. And

the approval is not all out there, or the understanding. It's just work to be done. Selfless service ... I feel my body now ... (well ... if there's nothing further You want to examine or ... we'll just come out of the trance gradually, as I count from 1 to 10, You'll return to consciousness and). I'm here now...

Oh walk on, be strong, go on
Don't run away
Don't go astray
Don't lose your way
DIVINE ONE open up our eyes
that we may see You
Oh let our feet walk on those paths
That will get us thru
Oh I laid my head on the Pyramid
DIVINE ONE don't let nothing
Stop me from doing the things
that I was to sing
Oh don't let nothing
Stop you from going on
Oh don't let nothing
Stop you from being strong
Oh you must go on
Oh be strong, go on ...

excerpt from Chant-Prayers to All
Thru Nazirmoreh (1970-1981)

NMC became known to the general public during the early 1970's and has blossomed into a way of life which is grounded in Truth which is beyond any one religion, Truth which is found in all religions. Nazirmoreh (A.B.R.D.) has been imparting on different levels, at different degrees, in different bodies throughout all existence, since beginningless time.

The Path of Community

On memorial occasions, from time to time, Reverend Nazirmoreh (A.B.R.D.) has spoken to us of some of the experiences which Reverend Nazirmoreh (A.B.R.D.) has encountered along the Way during this life. Through these glimpses, the following account is rendered. The following narrative (first appearing in the "The Purple Veil" newsletter May of 1990) had been drawn by recollection, as a 'word for word' portrait does not chronologically exist at the present time...

Nazirmoreh comes from a long line of mystics, of which Nazirmoreh's father and father's father are adepts in esoteric knowledge. Nazirmoreh felt the inner call very early in life and always appeared extraordinary to family and peers.

The realization of Nazirmoreh's stature and mission in this life occurred in early manhood. Nazirmoreh was led to a book covered with the dust of many years, in the cellar of a large old house. This small book held within its' title, the key which unlocked memories of former lives and the cognition of the direction which this life was to take. The innate abilities of spiritual leadership and far reaching vision, led Nazirmoreh to walk the path of community.

A few years following this illumination, Nazirmoreh was initiated to bring forth the ancient teachings in the capacity of leader and teacher. This led to the founding of Nahziryah Monastic Community. The fundamental and universal truth principles that were taught, the rules and regulations that were adhered to in the spiritual communities of the Ancient Ones, laid the foundation of this monastic order, this monastic lifestyle. This is succinctly phrased in the following truth principle - Live the life and you will know the doctrine.

*"I received the Call -
I was selected as One that would not fall -
that would feel, hear, see -
that would give the All,
would not runaway,
go astray, lose the Way."*

Initially, the community wore all white garments in one season, and all purple in the other. All white signifies the purification process of spiritual attainment. All purple signifies a high aspect of spiritual realization.

Nazirmoreh brought those drawn to Nazirmoreh as students, out of worldly life and instructed them by up leveling or revealing esoteric truths hidden in conventionally accepted spiritual writings. The community subsequently went into the wilderness to live a secluded life, learn from Nature and grow further spiritually. Such was the path of spiritual communities in days of old. Some students left, some stayed and more came, as there is only room for those who are serious about their spiritual advancement.

As the years progressed, Nazirmoreh's pace accelerated as Nazirmoreh brought the students in degrees, to the understanding of the universality of Truth which is expressed throughout the world. Truth is irrespective of color, creed, and nationality, as Nazirmoreh teaches. We are not these bodies.

The fires of providence presented circumstances which took the community once again out of seclusion, to dwell among the masses, to be an example that there is more to life than what is conventionally taught, and to grow further.

In time, when it was time, the advancements of the community were made manifest outwardly through the change in color, or vibratory rate, to all purple garments. And, as revealed to Nazirmoreh, the title was added - - The Nazir Order of the Purple Veil. Purple is a color of the highest Order, which envelops the community in Truth and Light and Love ... beyond the limitations and confines of worldly mass consciousness. As it has been said, Dwell in Truth and Truth shall set you free...

Blessings and Thanks to our Spiritual Master -
Reverend Nazirmoreh (A.B.R.D.)

Words of Reverend Nazirmoreh (ABRD)

Commitment

... The mission, the service, is still effective, continuing. It's an old saying, 'Talk does not cook the rice', okay. This is what we're aware of - talk does not cook the rice. And people talk about our hard work and our meditating, and so on and so forth ... There's some very serious spiritual values concerning commitment, disciplines, services, and we're doing it, you see. But doing it to the point of, like I say, I'm not that much attuned to overwhelming numbers, or whatever, you see. Because the service is 'Many are called, but few are chosen'. Everybody is going forward at their level ...

Transcendence

... So I'll say our service is very serious. It's very serious ... and some are clinging to this over here, some are clinging to that over there. But that's the level and plane of consciousness they're traveling on. And of course, if they have a chocolate habit, they'll cling to their chocolate. If they have a cigarette habit, they'll cling to their cigarettes. If they have a tobacco habit or alcohol, they'll cling to that. And they'll try to distract the responsibility of raising beyond that particular entrapment or that particular desire and say, 'Well, I'm doing this - and this will take care of that.'.

But of course Nazirmoreh is working on certain levels and certain degrees whereas it's time for a lot of certain experiential activities to be transcended and let go of. And a lot of people are still just not ready to do that, to transcend in degree. They're still waiting to see heaven open up. They're still waiting for the kingdom of heaven, you see. Waiting for it and looking for it, and not making the necessary moves and adjustments to bring it about, to bring it about. And to bring it about is what the man on earth is about, trying to work and cooperate to return back to that higher state of awareness, consciousness, and 'Your kingdom come, Your Will be done on earth as it is in heaven'. So it is to manifest on earth as well, at a certain stage of development. And people have risen to that degree of consciousness. And the only way you're going to rise to that degree of consciousness is overcoming a lot of mental - physical corruptions, and distractions, and attachments, and so on and so forth.

We're working hard on that. And we're working hard at it. And we're going to continue to work hard at it, until I transcend this plane of existence and consciousness. And I pray I'm more proficient, and I pray that I give more services as I continue toward that effort, more and more, to have a direct, positive influence...

III. The Teachings

Part 2 - Works Alone; The Way

... I'm just here, you see. And I'm here and I'm trying to give some information, give my input, to keep everything going in a coordinated manner...

... Every minute of our time is dedicated to service, working and maintaining this church, Community, order ...

Call on the DIVINE ONE
Open your heart and call
Ask for delivery
Walk away from all your misery
Let your heart be true
You know what to do
Oh keep your heart true
Oh He will help you if you be true
I speak to you
You know it too
Was your heart true
What did you do
Who did you do it to
YOU
Oh DIVINE ONE hear our call
Don't let us die
Oh DIVINE ONE hear our call
Don't let us die by the hand of those
that cannot see
Which are those that cannot see You
Oh let our heart be free
Oh deliver us from our misery
Oh let our heart be free
Oh let us sing on to You
Oh let our heart be true
Let us walk with You

Chant-Prayers to All Thru Nazirmoreh (1970-1981)

Acts

We're all unique units of the overall total whole... So you come into this plane of existence for your experience. Your experience is for your growth and your learning ... Higher self, lower self - physical man, spiritual man. Where do you find God? You find God beyond the body and beyond the mind ... Talk does not cook the rice. Action. Talk is a preliminary, it's a prerequisite. And faith without works is dead, being alone. Faith with works, talk with works. You have to back up your talk thru your actions. The Divine Essence working thru you, you have to do the works. That's why you're on this planet ... You're on an infinite journey, and in time, you will come into all knowledge. The razor's edged path. In other words, when you decide to speed up, when that path is chosen, then you have to know and understand your lessons and experience. They come faster and they're going to be more painful, because you have to learn thru pain. It's not a punishment. It's directed towards teaching...

Outer Circle

... I've had complaints about 'Yeah and the sisters are', you know, 'carrying tables', and so on and so forth. Well these sisters are not ladies, you see, they are spirit beings travelling in female bodies. And we look at them as women, and they are women during this life time experiential journey/activity. And you know, you have women out in the street talking about women's liberation and everything else. And they want to, you know, do their share and they want to play the male role and so on and so forth. And they're tired of being ladies, and so on and so forth, you see. And they're fighting and protesting and everything else for this privilege or this opportunity, you see... In the east, that's how it is. These sisters are doing this, you know, like they're not out there going everywhere, being everywhere, doing everything. They're not dancing in the streets and everything else. So they even need exercise. They need to do these things to keep them going, to keep them youthful, to keep them strong, to keep them active, alert and everything else - instead of laying somewhere getting fat. You know, and I'm not talking about fat, but you don't have to be, you know. But they need that exercise to keep them alert, to keep active, you know, to keep going. You know you can go into boredom, you can go into drugs or anything else to excite yourself, to keep yourself entertained, or you know, active or whatever else, you see. So good, hard, honest, decent work with an honest goal ahead, and a lifestyle that is clean, you see, and what would you say - - - productive, and productive. And this is what we're doing here...

Inner Circle

... You're a woman, and you have become a women thru that experience. See, you've become a woman thru that experience, and now it's for you to go beyond being a woman into a true spiritual conscious being. Now it's for you to put your concentration, or your involvement into that direction to evolve out of womanhood into spiritual awareness, consciousness, and so on and so forward. But that's the effort you have to make, and that's the test, the trial, the tribulation, the experience. You get what you are, and you get what you pay for...

The Choice

... beauty is in the eye of the beholder. You go out and you're getting ready to go on an important engagement, you see. And you get all dressed and you're getting ready to go out and you spring your ankle pretty bad, hurts, terribly bad. 'I had this meeting. I was getting ready to do this, that or the other.', and 'If there's a God in heaven, why did this happen to me. This must be the work of the devil. I was just getting ready to do something real good, beautiful, which would have changed my life.' Right? And they go and brood and what have you. However, they could have gone out and had an accident. They could have gone out and run into someone, and killed someone, or themselves.

So things happen within the universe whereas you don't know, you can't say why this or that has happened, you see. And a lot of things that might happen to you, that you look at as not being good, you see, is perfectly good, well and balanced within the overall total structure of things, you see. So people go into good and evil according to their degree of awareness and their consciousness. I think in the Bible Scriptures - and Satan came before the Creator and the Creator said, 'Where are you going, what are you doing Satan?'. Satan said, 'Well, I'm going to walk the face of the earth. I'm going to test man. I'm going to test man, make him go thru some changes', you see. 'Well, go and test him'. And that test is a part of the experience, that's a part of the choice. It's a part of what you are going to do at particular times, to either keep going forward or to stay where you are, you see.

But it's still your choice. Whatever tests, trials, tribulations - it's for you to make the necessary decision, according to your experience, related to what is going to take you further into your true spiritual essence with All That Is, Was, and Ever Shall Be. It's

under the power, the unlimited power of the Divine Creative Essence of All That Is, Was and Ever Shall Be, you see. And the Divine Creative Essence of All That Is, Was and Ever Shall Be, means exactly that. All That Is, Was and Ever Shall Be, within creation, within all worlds, within all existence, came from the same source. The devil didn't create the devil's self. Man created the devil, to a point, within man's own consciousness. Because he brought about separation, you see. He brought about division through his clinging to material, physical existence. And along with that clinging to material, physical existence - something had to be brought about to make him cling less, to bring his awareness or his consciousness into that state of consciousness that this is limiting, and you don't have to suffer this, that or the other if you just raise your consciousness and go forward into all Wisdom, Knowledge, and Love. Truth, Light, and Love - Wisdom, Knowledge, and Understanding. But that's brought about through experience.

So sickness, pain, you see, evil, misfortune - all of that is a part of your experience, to help you and to assist you to learn that there is something higher than all this. And you involved into it through your choice. It's your choice. And when you have pain or you have sickness or anything else, it's a part of that experience to help you to learn and to grow. It's all a lesson, you see. It's all an experience to help you to learn. It's not even punishment. It's a learning experience for you to choose what direction you're going in with your life...

Fields of Experience

...Because everybody on this planet left a higher state and descended into earth for experience, to learn and grow through experience - the bitter / the sweet, the wisdom / the woe. All those that are fallen spirits - - - - - you see, it's more metaphysical than that. I'm telling you the simple plane ... Everybody likes to say, 'What's over on the other side of the fence'. Everybody else is always blaming someone else, you know, 'Let's blame the devil, just keep blaming the devil'. But not realizing that that symbol or fallen angel, or fallen spirit was the descent of spirit into matter. Divine spark into material, physical plane of existence. Because it's like, 'What's happening down there. I want to see what's going on over here, here, and here'. And that was a pulling away from all the Heavenly Hosts, and Divine Essence to go into different fields of experience. And I'm using terms...

Chant-Prayers To All
Thru Nazirmoreh
(1970-1981)

All the things that are not true
All the things that keep me
from being One with You
Oh all the things that make us
two, three or four
till we can count no more
Oh we walked away
We went astray
We lost our way
Oh You came to us in our dream
They said it was Your dream
Was it a true dream
All the things I saw when I walked with You
When I once walked with You
I was not two or three or four
till I could count no more
I walked with You
I talked with You
I sang with You
I dreamed with You
Oh we walked thru the night
The Cosmic Night
The Cosmic Day
Oh we walked away from the Day
We lost our way
We went astray
Now bring us back to You
Show us what we must do
to be One with You
Oh we are the Sun
Oh we are the Moon
Oh we are the Stars
All is ours
Oh walk with me and I'll walk with You
And all of us will get thru
I will sing to You
I will walk in my dreams with You
Oh DIVINE, DIVINE, DIVINE ONE

Oh I know the pain
Oh I felt the blame
I walked in shame
We are the same
Your blame is my blame
Your shame is my shame
Your pain is my pain
We are the same
We are the Sun
We are the Moon
We are the Stars
All is ours
Oh these are the things
That will kill our dreams
All the things that will kill our dreams
I will not hold within my heart
Oh I felt the pain
I walk in blame
I know the shame
I was the blame
I felt the pain
I walked away
I lost my way
I went astray
Oh DIVINE ONE I see You in the sky
I hear You in the breeze
Oh I know You are there
I know You are there
Oh You are within me
When you deliver me
We will be free
Oh I know you are there
When You deliver me
We will be free
Oh DIVINE ONE I will be
what You will be to me
Oh DIVINE ONE I will be
what You will be to me
If You will make me free
Then I will be free with You
And You will be free with me
And You will walk with me
And talk with me.

Stages of Civilization

... We're talking about natural. When I say natural, I'm talking about natural related to nature. I'll say on a holistic level, a closeness. And then that closeness is being brought about as, or say, an involutionary, karmic, cyclic experience ... We can say cause and effect, and so on and so forth, I don't know how far you will go with, say, spirit, body consciousness, or mind - involutionary experience. Involution - when spirit involves into matter, taking on an involutionary experience, involved in physical, material things.

So you're going into an involutionary experience. You're involved in things of the earth, things of nature, on a very earthy level. That's part of your experience. So as you experience, as you attune to nature and commune with nature, you receive information through that attunement, that oneness, and that communion. And you go through that involvement, go toward an evolvment. You begin to evolve out of the things of earth, mundane, physical, material existence, involvement. You begin to evolve to a higher state of consciousness, spirit, returning to that Higher Self, Being, Understanding, Consciousness. You're expanding your consciousness and your awareness, you're developing spiritually.

Now, when you say Egypt is more of this, that or the other, it's more civilized, so on and so forth, I'm saying that through that involutionary experience, that communing with nature, that involvement, then you go through stages of civilization. Or - it's your life, it's your experience. It's your life, everyone gets involved and they grow according to their awareness, their attunement, their life, their individualism, which is just a means to an end. It's not an end in itself. It's a means to an end. Because we are One in that total essence. So I would say that there have been people that have evolved within these different, say, tribes, nations, geographical locations, but as a mass of people or as a cultural development, or as a national development. The Egyptians could have evolved to a point to express that degree of involvement through their structure, their creativity - to be able to manifest and express, say in the arts and sciences...

In This World

... There are certain things in this world that prevents that communication. And of course, a lot of people don't even - won't recognize this, you know. They'll continue to smoke their cigarettes and continue to practice their bad habits and everything else, and say 'as long as you're going to church on Sunday', thinking everything is going to be alright because 'I'm going to church on Sunday. And Jesus died for all of this, and I can continue to smoke my cigarettes, and drink my alcohol, and shoot my dope, and take my pills, and everything else, you know, because everything is okay'.

It's not like that. You're supposed to have Christ within. You're supposed to be attuning to your true, inner, spiritual being that is One with Christ. It's not Jesus living in that body. It's you tuning into the same consciousness that Jesus tuned into. And tuning into that consciousness, then you'll be able to look at this world and see certain things that you should have outgrown or outlived, that is detrimental to the existence of this planet. And if it's detrimental to the existence of this planet, then you're contributing to that detriment, and you don't rise to higher degrees or levels of consciousness yourself...

But Not of This World

... but still you have to do what is necessary to help those to rise to higher planes of activity, existence, experience, and awareness. A lot of things are detrimental to their physical/mental well-being. And you shouldn't support those things that are directed toward polluting bodies, minds, and setting up blocks in their being - to prevent them from perceiving higher energies, higher thoughts, higher practices, higher life, higher being, or higher aspirations. Because all on this planet earth has an affect upon the body and on the mind, that is leading to the higher planes of realization, awareness, attunement, anointing, consciousness. And if you contribute to those things that are detrimental to that effort, you're just as responsible.

But everybody gets what they are, of course, and they get what they pay for. And that's experience. It's their experience, their life. And they live according to their experiential need. And if they need to experience cigarettes, alcohol, drugs, or whatever, that's it. And we pray they learn through that experience. We pray that they learn in time that 'that alcohol wasn't too good for me, or these drugs weren't too good for me - or this, that or the other wasn't too good for me and I need to go beyond that'...

Learning through Wisdom

... That's why people don't accomplish. Because they get in situations, and have to run from them. They have to run from them, just running, running, all the time. Running, running in their mind, in their bodies, in their consciousness. And just running around in circles, not going anywhere. So you really have to attune to it, what Nazirmoreh is telling you ...

Learning through Woe

... 'I've got to get from there, I've got to get over here, I've got to get out of there, I've got to get away from this, I've got to get away from that.' You know, if you keep in that state of consciousness, you're going to be running forever, trying to get away from something. And what you're trying to get away from is within you. It's within your being, and you're going to have to let it go. Your self, out of yourself. It's not walking down the street. Think on it, talk to you again ... OM ...

The True Abode

... It would be good to study the effects that different things have upon your physical being. Because you're traveling in this world and you're trying to get back to Allah. But in this world, there's so much happening that you go left and right trying to make your way back - and you're distracted. Through that distraction you find yourself doing certain things. So you're distracted by colors, sights, sounds, smells, and everything else. But you know what to look for and what is most conducive ... Like say, you want to go into prayer or into

meditation, then it would be wise for you to be in a conducive environment. And that environment would have the right sounds in there, right colors in there, the right scents in there, incense. Everything will be attuned to what you're trying to achieve. And that will make it more conducive, instead of you struggling with different energies and forces. You will be tranquil and meditative, and it will help you or assist you in your efforts ... Inner self, that's where your meditations come in, that's where your prayer and meditations come in.

Now we're dealing with a tradition. If we're Islam, if we're Muslims, we're used to prayer of course. But then prayer is a form of meditation as well. But then you can go into a meditation.. because traveling on the planet in this atmosphere you're surrounded by energies. There's such a thing as a thought atmosphere. That atmosphere is composed of all of the different thoughts and programs and conditionings and everything else that's out there in the atmosphere. So when you're struggling, and you're trying to be a good Muslim, a true believer, and so on and so forth, and you're out there in the world, of course you've got all of this thought energy impacting on your consciousness. And it makes it like a struggle for you. Now, if you know all of this, then you're going to do some of the necessary things to help alleviate the situation. So you're being distracted, we'll say distraction. When you come into this plane of existence, you're coming in for an experience. It's called an involutionary, cyclic, we can say karmic experience, or experience, cause and effect, and so on and so forth. So you undergo an experience, involution. You're involved in things of the earth, things of matter, material, and so on and so forth. You're very seriously involved. You're drawn away through that involvement, from your True Spirit Self, Being, Essence, that is to return.

So you come in and you struggle through this for experience, to know that the true abode is in Allah. But you come in here, and you have to struggle through this, and you get attached to these various things, and that's where the experience comes in. To really, through experience, know the true abode is in Allah. But as you come in, you're experiencing, you learn through experience. But along with learning through experience, sometimes you get distracted by experiences too. And so you don't learn, you get stuck in them. You like this, this sensual, sense gratifying ... and so on and so forth. So you get stuck in it. You don't learn and you go through it over and over and over again because that thought atmosphere is being impacted upon you. And this is what is accepted on the earth plane as 'Oh, this is normal, right'. And the system upholds the normality. And you say, 'I'm a good Muslim, a true believer. And I'm going to abstain from this, that and the other'. You'll find peers and families, and everything else, if you didn't come into the family in that manner. And that's experience as well. And so they say, 'Oh no, I don't believe in that, that's not right, you should be doing this, you should be doing that, you should be doing this, that and the other'. You know, because this is supported by the system. And you're considered as kind of odd and what have you.

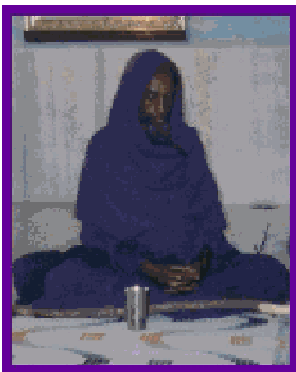

So when you start meditating, you are pulling away from that thought atmosphere, people, places, and things, distractions, and so on and so forward. And you're going into your True Spirit Self. You're going into the abode of Allah, because that's the dwelling, that's the true higher, true being, connection, Oneness. "There's no God but Allah". Allah is All in All, and in you as well - the Breath of Life. But you have to get away from the distractions, people, places, and things, all these little things that's going on all around you. You have to pull away from them periodically, and sit still, meditate,

and go within your inner most being. And then you will find the True Spirit, Energy, Spiritual Self, Wisdom, Knowledge, Understanding, through practice.

You don't take it with you. You come and you get glimpses. And that glimpse gives you strength, It gives you strength enough to get back out and live your life in the everyday world, with a little more understanding, with a little more knowledge, a little more strength not to be distracted, not to be detained, not to be in fear, doubt, anxiety. But to know where you're going, who you are, and know that nothing on this planet can keep you from going where you should be. Meditation can give you that type of energy, wisdom, knowledge, understanding, and strength. That's true experience, because everyone has to go through their own experience. It's your life, it's your experience. Somebody can tell you this, somebody can tell you that. Somebody can say don't do this and do that. This is right, this is wrong. It's coming at you from all angles. But you came on the planet to live your life, go through your experience, and to grow and return back to the Source, return back to Allah. Meditation will help you to attune yourself to the understanding, and give you strength and security. And belief turns into knowing. If you are a believer, and you have strength in believing, then your belief will turn into knowing, Knowledge. And when you Know, you'll see it.

As-salaamu Alaykum
Wa-Alaykum as-salaam

Higher Involvements

When the student is ready, the teacher appears... The thing about meditation, is conditioning your body to sit in a certain spot for a longer period of time. Because that's the biggest problem. You sit, like I'm sitting, and if you're not used to it, you sit and your body goes to sleep, starts itching. Your body is always going to try to get your attention. That's just a part of the withdrawal symptoms as well. When you're withdrawing from anything, there's going to be something within your body, within your mind, that's going to try to keep you attached to that which you're trying to get away from.

And meditation is rising beyond the body/mind consciousness. Because there's a higher knowledge, a higher truth which dwells within your innermost being. Beyond the body - physical conditioning, and beyond the mind - mental conditioning programming, people, places, and things that you've been taught, programmed or experienced within the thought atmosphere. And through meditation, you get to the point whereas you rise beyond that. Beyond the body, the pull of material, passions, desires, and things like that. You release the body. And you release the body and go into the mind. And then you go from the mind, beyond the mind. From a lower state of consciousness, to a higher state of consciousness. And from a higher state of consciousness, beyond the mind totally. Beyond conditioning, programming - what he said, she said, they said. And you begin to go into your True Spiritual Being, Essence, where all Wisdom, Knowledge, and

Understanding dwells --- where all Strength, Truth, Light, and Love dwells. That's beyond this physical, material degree, or experience, awareness, consciousness.

But still your whole being or the mind, is attached to, or distracted from that higher state, due to the pull of material, physical experience. So everything, you see, you think physical/material, material/physical. And this is where your whole consciousness is centered. And it's centered here for a reason, for you to go through an experience. An experiential need for you to go further, beyond your desires, or beyond your curiosity, or your need to go into certain experiences. And you learn and you grow through experience. You come and you say, 'I want to experience life on this level, in this area, in this country, in this place, in this body', and you see what it's like. You can say, 'I know what that's about, therefore I don't have a need or pulling in that direction anymore. I've out-lived that experience'. And as you out-live experiences on certain levels and certain degrees, you just rise from your experiences. Your consciousness is expanded. Your spirituality develops. You become more aware. You get to the point whereas, 'I'm not about this, that or the other. I have no need for that'. You apply that knowledge to everyday physical, material existence. And as you attune your consciousness to higher levels, you begin to attract higher experiences to yourself. Higher things, higher people, higher involvements. You begin to raise your experiential levels, your experiential need, and you grow from those experiences. You just keep on growing and expanding, and expanding and growing whereas you don't have a need for that particular experience anymore... All in All...

Inner Knowing

... that spark that went into matter, got involved in matter. And getting involved in matter for that experience, pulled away from the total essence or consciousness. In other words, it got kind of covered over. It got distracted.

So you start putting things into your, say, involutory experience, or your individualized consciousness, being in division of the total essence - to really observe fully and carefully, to go through the experience and to rise beyond the experience. But then after putting so much attention into it, it began to get attached and it couldn't pull away from it, it began to just live the same thing over and over and over again.

And that inner knowing is there. And it's giving you little messages, trying to instill it into your mind periodically, to move you forward. And everybody moves forward, bit by bit, you see. And of course it moves forward according to what you have received or learned and accepted through experience, body/mind, what it has been able to learn and grasp through that mundane experience...

Touch Fire

... And it learns and grasps through that mundane experience, related to discipline, related to experience, related to going through pain - I touch fire, I get burned, it hurts, and what have you. You look at all that objectively. 'I do this and I don't feel good through that'. Eventually some people have to touch fire... go through the same experience over and over again.

But it gets a little more subtle on the spiralic journey. And it could be touch fire, but on a different level. Something that's going to hurt on a different level, it's a little more subtle. From physical/objective physical pain and actions that brings about direct physical pain, and then it can go to a level where you say, 'Well look, I know I'm not going to touch this fire and I'm not going to do this', but you end up doing something else that gives pain on a different level. You start feeling mental anxiety, doing things which bring about mental repercussions, reactions-actions-reactions. And along with, say, mental actions and reactions, eventually the mental reactions on a higher mental plane is going to affect your physical body. 'I am still going through different changes, when I'm not touching fire, but I'm worrying. I'm going through changes', and they get ulcers. And their thoughts have affected their physical body through ulcers, through physical pain, or hypochondria, or whatever - mental thoughts and pain and sickness and everything else that you haven't been able to transcend. And you cling to them on a mental plane. And as you cling to them on a mental plane, they will affect you physically.

So you're trying to rise beyond your fear, you doubts, your anxieties, from a physical, 'I'm not going to do this any more, because I will be physically hurt by it, --- but I'm not going to even think about it any more', you see. 'Because if I constantly think on it, and I think on fear, and I think on this, that, and the other, then I'm going to be attracted' - like attracts like. As a man sows, so shall he reap. If you sow mental images and thoughts all the time of fear or what have you, then you're going to be attracted into that experience. And you're going to be attracted to that experience and you're going to still have to learn through some physical pain and suffering, to the point of, 'No, I don't even want to think about that, because if I think about it too much, I'm going to get pulled into it. If I go out there thinking about an accident, I'm going to run into something or someone, I'm going to be pulled into that type of experience' ...

The Vacuum

... Desire. Desire to hold on to. The one thing about desire and aspiration. A lot of times desire is directed towards pulling you into physical concerns or experiences, it's a lower vibration, energy, you see... And you have the mind/brain programmed, conditioned consciousness, and what they call the senses, the senses - five senses or organs. You've got the senses, and the senses have been sensitized to the point of enjoying the feelings. And it enjoys the feelings that is connected with the mind/body state. And it wants to hold on to that. It doesn't want to let go of the physical. And not wanting to let go of it because it doesn't have the true energy of the higher awareness of understanding.

The True Inner, All Wisdom, Knowledge, and Understanding is beyond the senses - the mundane, physical, material senses. But fear of the unknown - physical, material, body/mind consciousness. You know the old saying, 'Everybody wants to go to heaven, but nobody wants to die to get there'... But the mind and the body, attached to the senses, doesn't want to let go. You feel good.

And then you're living in a thought atmosphere - people thinking, mind impressions. All these thinking minds, creates a vacuum, it creates a vacuum. And when you go into that vacuum, it impresses images and thoughts on your mind. And you might be thinking you might feel secure and what have you. - - - And don't let people say anything... 'Don't you think I should go...'. 'Oh no, that's not right.' People will try to talk you out of doing what you have become skillful or attuned to, mentally attuned to, feel secure in... they'll talk about that because their life is their life. So they say, 'Well look, uh, if you get into that, and if you do that, you won't be accepted here, or you won't be able to keep a job thinking like this'. They put limitations on you all the time. And that's due to their fears, that's due to their ignorance, that's due to their emotions, due to their senses, due to their state of consciousness, or their intelligence, or whatever - - - conditioned programming, conditioned programmed reactions...

The Crack

... They're watching. All the time watching, watching for a breakdown, for an opening, for a desire. They're always waiting, from the highest, to the lowest. Watching, waiting for an opening. And when they see an opening, they'll be there to slip right in. They only slip in because there's something to slip into. If the door is shut, then they can't slip in. Start cracking the door, you give them an opening to slip in...

The Beholder

... Beauty is in the eye of the beholder. And if there's somebody coming subtly and you can't see it, then that's your problem. It's what you have to do to rise above. People can do anything they want to do to you if you can't see them doing it to you. I don't care if they're black, red, yellow, or green. If you're open for certain vibrations and energies, or you have a need for that, then they're going to give it to you, and put it on you, and you're going to accept it. Subtly, blatantly, or whatever it is. Whatever is happening, you're letting it happen. The only thing that is happening is that you are letting it happen. So if it's being subtle, it's being subtle to the point of you putting up a blind before your eyes to let it be subtle.

OM

Your Mind

What Are You Trying Now...

i don't understand?

Every Moment Of Your Life You're Trying Something. What Are You Trying Now...

What's On Your Mind...

Here and Now

... You should try to transcend those bad memories ... (*transcend? what does that mean?*)

... Rise above, live in the here and now...

Cause and Effect

... Well, I understand, you're very faithful and you're very devoted and dedicated. However, under the circumstances, you must realize that even if you say, 'Well uh, I'm not deliberately doing this', or what have you, it's still being done. And if it's being done, then something has to happen, whether it's a deliberate thing or not. Something has to happen because you're still going to suffer the consequences of it being done, cause and effect, action and reaction. So we can go around and say we didn't try to run over the little child. You have man slaughter and everything else. But you still have to pay the price for those actions, or those mis-actions. And you can't continue to live like that. And something is going to have to happen to put a check on it...

Distractions

... your attunement to Truth, Light, Love, Wisdom, Knowledge, and Understanding. And you project, and say, and use your words accurately, accordingly, appropriately towards those goals. And when you don't, it's a breakdown in your mental faculty related to your ego. That's where the distractions come from. That's where the sidetracking comes from - ego stimuli. That's where the forgetting comes from, the lack of memory comes from the situations such as that. Because it's not conducive to ego gratification. And we say, 'Oh, I forgot. Oh, I was sidetracked. Oh, I didn't think of it. Oh, ...'. You didn't because it wasn't conducive to ego gratification. That's how it operates... Ego gratification. All just takes a little thought to rise above that stagnation. A little effort, a little thought, a little sincerity. A little Truth, Light, Love. Wisdom and Understanding to rise above those crystalizations and stagnations, condition, program - ego reflex ...

The Same Values

... especially travelling in these vehicles that we're traveling in, due to history and past conditioning and programming and the fears and the doubts and the anxieties of trying to get ahead, trying to be ahead, and wanting to be on top, you see. And due to that long history and that long programming and that long conditioning, back to the ancient past of, say, slavery. People still cling to those things. Even related to black is beautiful, and black pride, I'm an Afrikan, and everything else. All that's trying to overcome a certain amount of suppression, you see. However, they haven't tuned into the Allness of it. It's still on a me level - me an Afrikan, me black, me proud. But when it comes to, say working collectively with all, you see, that barrier still exists. And that barrier was brought about during that time as well, during that experience, as well. Programmed in, related to the fear of collective effort. And what was programmed into it - 'If I work with my brothers, the boss is going to get mad'. The boss being the higher power, mundane, physical, material system. The system is going to get mad. The system is not going to recognize me. The system is going to retaliate. I won't be able to get a position in the system. Everything is directed toward the fear of rejection, the fear of discrimination.

You see back in those times, if a brother wanted to be a preacher, he would go to the system. And the system would say, 'you're a preacher, now preach to the rest of these people, keep them in line. That's what you preach to, keep them in line, keep them in order', you see. And they reaped all the benefits from the preaching. And yes, there's benefit, and 'I'm a leader of the flock, and I'm going to keep them in line' - to be utilized by the system, you see. But still, all of that being brought - and even the preachers' being put in a position turned them against each other, and kept them separated, you see, kept them separated to a point.

And now as it goes on and on and on and on; and more enlightenment, and more energy is entering in, a lot of experiences have gone, and they've learnt from experience. People say, 'We're somewhat in tune to this system, we're going to transcend the system'. But they don't know how to, it's still deeply embedded within them, you see. Because when they talk about transcending the system, they're talking about getting in a power position. Rather than transcending the system, they want to be in a power position within the system, you see. They still carry the same values that have been embedded in their being, the same values. So the same values could even be projected as their prejudices as well. Because their prejudices have been embedded within them from the system, through the different means of embedding that within them. And it says, 'If it's still related to the system, and the value system of the system, and the acceptance, the prestige and the position, and I'm staying there'. 'Of course, I could look down on you, and you, you, you,' say if you're on a lower level related to the value of the system is concerned. Or even related to your ascending or your transcending, or your rising above that value system due to an inner spiritual awakening. But that inner spiritual awakening that you have risen to, beyond the value of the system and you have found a true inner system of things that transcends mundane, physical, material limitation - it would be looked upon and rejected, because I am not on that level. Therefore, I would look upon you and reject you just as well as the system would. Because inwardly, I am the system,

you see, because I still carry the same values.

So, black, brown, whatever, it's generally brought about through that, say, that inner programming, that need for security, inner security. But still that inner security is still motivated and directed from the system of things to be positioned within the system, the values, the values are the same. So say... this is kind of hard to relate to, because it's a paradox. Because knowing that everybody's life is their life. And they have to live it. And they have to experience and grow from experience. And they have to grow from degree, to degree, to degree, to degree, to degree through their experience and learn. And they're all going forward and they're all going forward at their pace, according to their degree of awareness. And they get what they are, and they get what they pay for, the effort they put into it. But still on the various levels, you still have those various attachments due to the lack of experience, lack of awakening.

So when you go over in one section and you say, 'I'm a black revolutionary. What is my purpose - to overthrow the system'. But to overthrow the system - to be in power. 'And I'll set up the same system. Long as I'm in power, I'm going to set up the same system, and I'm going to beat someone else's behind. You know, because mine was beat and I'm going to get mine'. And you know, it just goes on and on and on. Say I'm so and so forth - and that's the devil or whatever. But still, my idea, my system, and my values, basically the same. But I want to be in charge of this all, all of this. And that keeps everybody just running around in a circle. I mean that's why he's on top, because you were on top. And as far as these vehicles, you tch-tch-tch-tch (*hurt*) him, and then that karma was transferred to you and he got on top. And he tch-tch-tch-tch, and now you want to get back on top and tch-tch-tch-tch and it just goes on and on and on and on, you see.

So the thing is related to that, going back to that programming and that conditioning and that value system, you see. Even the experience, the preacher experience or whatever - the following - and what have you. When someone gets in a position, say, has reached a certain degree of awareness - or a group of people have. Or say you have five people in a room that have reached a certain degree of awareness, but within them, there's still a little tinge of that programming and that conditioning, you see. And you say, "Look, I think we need to get together, we need to get together, really. We've risen above thinking about getting hand grenades, you know, newfangled destructive, kill weapons, that revolutionarily takeover the system, you know, get even. We're talking about a higher level. We're not the body, we're not the mind, you know. We're talking about raising the level of all creation, doing our collective share of service for the upliftment of the consciousness of all existence, you see. Raising beyond the plane, going into the cosmos, the universe, you see. But we're here now, and we have something to work on. That's why we're here now. We've got to work and serve on this plane. Because this is where our consciousness is centered at this present time for that particular work. 'Let's get together and do something'. But inside that little block, that tinge comes in, "Get together, get together? What do you mean together?'. You know that togetherness thought/feeling has been somewhat stifled. And you say, 'Together?!?'. And say you do get together, and if you are together, there's always some outer force, 'What you doin' at that place. What

y'all doing together? What y'all working together? Collective? What you talkin' about collective. You do for yourself man. You need to get your own. That's what it's about, getting your own'. And it's constantly bombarding, to the point of - - -

Say Nazirmoreh, or you, or whoever - - - I'm not well looked upon out there with people. There are those, of course, people that understand, that really know what we're doing. But the majority is still mass consciousness, mass programming, and they still look at us like "Those people, those strange people, what are they doing'. 'I don't know what they're doing'. They couldn't even attribute whatever we're doing that we have succeeded in, to anything positive. I mean related to the simplest positive thing. It relates to what level or plane or consciousness they're traveling on. But they say, if we have accomplished something - say we're still here after 7 years (note: The Veil of Truth Omniveristy - Center for Metaphysical and Esoteric Learning located in New Orleans from 1988-1999), and we're still working hard and everything, we're still going on. And I know this happens. I'm not believing - knowing. Somebody would still say, ' Yeah, I think they're selling dope'. That's on one level, you see. On another level, 'Yeah, I think they're doing witchcraft, black magic', whatever. But they won't attribute it to something positive. They won't say, 'Those people are doing their work. Work and meditate. Meditate and work. They must be getting something positive out of it, something beautiful going'. 'Their service is being supported by some of the higher powers, energies, collective energy'. Which it is, you see.

But they can't see that because of their fear, because of their rejection, because of the system, because of their programming, because of their conditioning. So therefore it's kind of difficult, even say, having meditations, or whatever, classes, meditation, or whatever. Someone coming, and sitting, and talking to Nazirmoreh, or studying together, or getting them to meditate together, or being part of the Community. Did you ever fill out the questionnaire?.. Or being a helper/supporter member. Most people put helper/supporter. They might say visitor/student. See, because they want the least involvement as they can have, least involvement. They don't want to collectively help, to go forward, you see, because it's still embedded within them...

To A Fellow Traveler

... [they're] trying to pull you back into, 'You don't' have to do that. You could just as well drink coffee'. 'Have a cup of coffee, have a soda pop. You can do that. Jesus died on the cross for you. Jesus took care of that. You can drink a soda pop, have a cup of coffee', you know, 'a cigarette, drinking alcohol'. And that's the way it is. And those people that - you know, meaningful people - meaningful people still caught in the condition program, and the condition program is to keep you just where you are. Keep you just where you are and keep all of those companies in business. Keep soda pop in business, keep the cigarette companies in business, keep the chocolate companies in business. Keep whoever is in business in business - to keep on putting all those poisons out into the bodies of man, the cancer and all kinds of disease and things that kill.

'Oh, I know, it's all over the billboards, and I don't want to die, and I don't want cancer, and I don't want this, that and the other... But, I like it. I've been taught that it's good, tastes good. I've got to have it, I need it. And if I don't do it, people will think I'm some kind of weirdo, some kind of strange being, or think I'm possessed by the devil or something. If I don't think it, if I don't do what everyone else is doing, they'll think I'm satanic. I'm a witch, a satanist, or the devil is behind it because I'm different and I'm kind of strange to you'. Because I'm a doer.

So with all that, there's still that work that Nazirmoreh has been trying to maintain and trying to expand and improve and bring forth and be an example - no matter how hard people look and point and talk and say, 'They're doing good because he's selling dope'. Some people even say things like that. 'They must be selling drugs out the back door, because they couldn't be doing anything like that, doing good. You have to do bad in this world to get something'. So someone thinks you're selling drugs out the back door.

Someone thinks you're in the back room chanting [spells] ... you have something tricking people, or the devil is supporting us. And the devil is giving us money for selling all of this wicked information to people. And this is Hoodoo Voodoo. And he is the great Lucifer, or whoever. I'm not saying people are saying all that much, but some of them give those hints. That he's taking advantage of them. And he's getting all the money.

Note: The Reverend (A.B.R.D.) had received reports concerning such statements as these. These are things that were said by the fearful - the uneducated, in the degree that the Reverend (A.B.R.D.) was working in - unknowing - not spiritually growing, in the earlier years of Nazirmoreh's (A.B.R.D.) travels, transmissions, activities, ministry, service, in certain areas at certain times to those Nazirmoreh (A.B.R.D.) was trying to impart an amount of information to. However, this was due to unknowing - limited awareness - not recognizing the sight - weakness in might to make the flight - above in Love - expanding, transcending. Of course, these are not things that are being said at this time regarding Nazirmoreh's (A.B.R.D.) travels, projections, information, service, activity, that Nazirmoreh (A.B.R.D.) is aware of - here and now. This was many, many years ago.

Anyone that would look at us and could not see what we would not do was very shortsighted and it took time when it was time for their eyes, for their sight to open to the knowing, to the expansion, the awareness - as to our service, our effort, the value of that service, the truth, the light, the love. Nazirmoreh's (A.B.R.D.) efforts to assist them to rise above in love (which they did).

OM

(The above is regarding the earlier years of Nazirmoreh's (A.B.R.D.) travels to and in New Orleans, 1985, after leaving the Monastery location, to relocate the Monastery in a different geographical location of the world, in another natural environment - however that location not being in New Orleans, but traveling through - which lasted from 1985 to 1999.)

We are on an infinite, spiralic journey.

OM

I'm not getting all the money... I have holes in my garment. I have to wear two of them now. One garment I can even see through it, you see. And if I sit in my valid position and talk to someone, they can see through my clothes. And then they'll be saying, 'Ah, he's some kind of freak. He's showing his body. He's an exhibitionist or something. I think he's trying to tempt somebody'. They can't see, that I just wear my garments and I'm not getting all the money. So, I have to put two of them on because I don't want to show people my body anyway - because they're just not ready to see my body. If they were ready for it, I would not have to wear these garments at all, you see. But they're not at that degree of awareness, therefore I have to wear them. But still like I say, trying to maintain. I'm beyond the desire for fine clothes and what have you. These little things are good enough. I'm not a miser, or anything. But I'm not glamorous to the point of wanting fine clothes and what have you. This is my garment, that's it.

Rev Nazirmoreh (ABRD)
1996

Please note:

Reverend Nazirmoreh (ABRD) wears patches in Nazmorehs' (ABRD) garments, that's Nazirmoreh (ABRD) - and all who choose.

And it's that for a reason, and this Order is for a reason, and what we're doing is a service for a reason. And with all of that talking and all that fear - - - and the fear is coming from people who don't want to change. They don't want to go into higher planes. They don't want to be spiritualized. They don't want to realize their Christ Self. They don't want to attune to their Christ Consciousness. They don't want the Father to dwell within, or the realization of the indwelling Christ/Father/Spirit, True/Essence/Being. They don't want to realize that, because that would cut down on their mundane, physical, material fun, you see. So therefore they go and allude to, 'Oh this, this, and this', but don't want to change for it. They want to keep doing what they've been doing. They want to keep doing what they've been programmed and conditioned to do. And they want to keep their body just where it is - with all the sickness, pain, and death as well. You know, they don't even want to raise it to a higher level or degree of proficiency because when you start talking about raising it to a higher level or degree of proficiency, then they'll start saying, 'That'll kill you. That's what's going to make you sick. Pop and cigarettes and junk and everything else, that will keep you going because that's what everybody does. And all that stuff they talking about - that stuff gonna kill you, that ain't nothing but the devil. That stuff just kill ya' dead. If you don't go get no drugs, you don't go get operated on, get no drugs and everything else... That's what doctors are for, to take care of us when we abuse our bodies. That's what they're for. We keep the doctors in business as well. Keep the companies in business, the ones' who are issuing out the poison and then we keep the doctors in business. We keep the drug companies in business and everything else'. And that's the way the world runs.

Prevention is better than cure.

The higher things, rising into higher planes, being more attuned to Love, loving yourself and your brothers and sisters, and not offering them poisons, not offering them things that are detrimental to their bodies, not offering them things that are detrimental to their minds, detrimental to their material, physical, advancement, spiritual awareness, attunement, consciousness expansion, not giving them things that would be of detriment to that progression...

Even though everyone's life is theirs, and they're going to get what they want. They get what they're ready for. They get what they need. If they need cancer to wake them up that they shouldn't have been doing what caused cancer - maybe they have to come into that degree of awareness, that's what it's all about. 'And if there's a Creator in heaven, why is this happening to me. I don't believe in the Creator because why am I sick.' You're sick because you made yourself sick. You're sick because you didn't follow the necessary information that was available to prevent you from getting sick, or to cure your illness. And you just went on and did what everybody else was doing. And lived like everybody else was living - and died, got sick just like everybody else does... die, get sick, misery, pain, and such is life.

When you hear the inner call and you're attuned to those who know, then you start making changes, adjustments, improvements in your habits that will be more conducive to Truth, Light, and Love...

Oh I walked alone
 Oh my heart was strong
 Oh I saw the wrong
 Oh I've seen them come
 Oh I felt the pain when they were gone
 Oh my heart moaned
 Oh the tears fell from my eyes
 All the time I knew I should be praying
 My eyes cried
 Oh my heart died
 Oh I walked alone
 Oh I looked at all the wrong things
 Oh the things that chase us to and fro
 in our nightmare dreams
 And when we awoke
 Oh we called to You
 We said we wouldn't do the things
 That took us through the Hell
 of all those bad dreams
 We would walk away
 From the things that make our heart scream
 Oh I walked alone
 I walked away
 Oh until this day
 Oh I pray to You
 Oh let our words get through
 Oh let us be One with You
 Oh get us through
 Oh bring us back to You
 Oh we were strong
 Oh we walked alone
 Oh we sang our song
 Oh our heart wept
 Oh when we saw the wrong things
 Oh our heart screamed
 Oh our mouth sings to You
 We call on You
 To get us through

(1988-1999)

...Now we're speaking about cows. Cows produce milk for cows. And the milk comes through cows for calves. *[yeah]* And the calf's mother has teats. *[yeah]* And the little calf drinks on the cows' teats. And when the little calf grows out of the need of the cows teats, it starts eating grass. It starts eating whole foods and grass and things like that. Just like a baby is suppose to have mamas teats, *[yeah]* a calf is suppose to have cows teats *[yeah]* . However when the baby grows out of the need for moms teats *[yeah]*, it eats food. And when the calf grows out of the need for the cows' teats, it eats grass. Now you have people that are, yourself probably included, that would say, 'Okay, well – I'm no longer a baby, and I'm not a calf, and I'm not even a cow — but I still want to drink cows milk *[yeah]* . Or I still want to drink goats milk *[yeah]* . But I'm not a goat *[right]* , I'm not a calf, I'm not a cow. I am a grown man *[yeah]*. I'm a grown man, and being a grown man – I don't need to be drinking milk from moms teats, you know. I can go to McDonalds – you know, using something like that *[yeah]*. Is that simple enough? *[Well like you don't want milk because you think it's just for babies?]* No, I don't want milk because I don't have any need for it. *[I mean like, you know milk is good in ice cream and all that, chocolate milk...]* Well it's good for your desires, it's good for your desires. It's because you've been programmed and conditioned into things of that nature *[yeah]* . You've been programmed and conditioned into the things of that nature and you've got an addiction to it *[yeah]* . You're a milk-aholic *[yeah]*. You're a milk-aholic, you're a chocolate-aholic, you're a milk addict *[yeah]* , you're a cheese addict – of course it's good to you. You tell anyone that crack is not good for them, and they say, 'Yeah, but I like that, I need that. It's good for me. I might get sick, I might go through changes, and I might fall down the stairs, or alcohol – drink a little too much, fall down the stairs and everything else. But I like it, it's good *[yeah]* . You know, 'I smoke a cigarette, smoke a couple of cigarettes. I cough and everything. And there's a billboard saying Smoking is Hazardous To Your Health. But what is that? I like it. It's my life. I do what I like to do, and I suffer the consequences'. And everybody's got an excuse for what they like to do. They've got a taste for what they want to do. They've got everything. So, it's their life, they do what they want to do with it, because it's theirs. *[Yeah, but I mean milk is healthy, and white bread is healthy too, and cheese and all that.]* You say that because you're talking through ignorance, you're talking through ignorance. White bread is not good for you, but like I said, if you like it, if that's what you feel you need, and that's as far as your education goes – then it's good for you. *[I mean, uh, white bread is really good for you. A sandwich wouldn't taste as good with different kind of bread.]* Well, that's what I said. It's because of your conditioning and programming. *[And it IS good for you too.]* Okay, white bread is good for you because that's what you like, and that's it, that's beautiful. Now I'm not going to argue the point for you. Like I said, if it's good for you. it's good for you. Beauty is in the eye of the beholder. And I cannot infringe my opinions, I can't infringe my information, I can't infringe my life on yours. *[And like, um, I don't smoke or drink but I know that adults , uh, like to smoke and drink – you know, I think that's a part of being an adult – smoking and drinking.]* Well good... *[I think drinking is made for adults, and you know, I don't think that should change. I think people should be able to drink and smoke when they become an adult.]* Okay... *[Because, like you said you didn't want drinking or smoking, you know.]* Well, you just live according to your life then. See, and that says that you couldn't come in here and live. You couldn't come within this Community and live because the disciplines would be a little too much for you. *[I mean, they have people that wear them robes, and they're in Africa and Asia and all. And they still do all them things.]* You would be uncomfortable, but... *[I mean wearing a robe shouldn't make you change anything.]* Well, no it won't, it won't make you change anything. Whether living in Africa or Asia or wherever anyone is living, they're living according to their life, they're living according to their experiential need, and that's their life and

that's their need and that's the way they live, and that's their business. I have no problem with that. *[But I mean, you want them to wear the robe and change everything, you know.]* I'm not telling anybody to wear anything. Just like I told you, those that want to make the necessary changes that we are going through... *[Well, that's trying to make them change.]* No, no... *[seeing as they have to do that to be a part of that]* ...no, no, no, no, they come in and they say this is what it is to be a part of this. And they choose for themselves whether they want to be a part of this. And if they do not want to be a part of this, they will not come into this. They will go and put some green on, or some blue, or they'll wear purple if they want to wear purple, that's their business and they live their life according to the way they want to live it. I'm saying, that when you come here - here are some rules, regulations that you live by. And if you don't want to live by these rules and regulations, that's your business, go somewhere else, and live according to the way you think you should be living. Those that say, 'Oh yes, I like those rules and regulations because I agree with them, and this is what I've been looking for and looking to all my life. I want to be a part of this because I feel one with it, because my views, my thoughts, the way I want to live life is in accord with this. *[Yeah and uh, people could get married and live in there too?]* Well see, the thing is I feel at this point I should not answer any more of your questions due to the fact that you're just talking. *[Yeah, well it's nothing wrong with getting some information and talking.]* Oh, that's beautiful, that's beautiful but I don't want to just be having vain conversations. *[Well I was wondering, you know, even before I talked to you about that, if people get married in there too.]* You're doing a book report? *[No, just was wondering if I could have got married in there, you know.]* You can get married where ever you are - why don't you go and get you

some one that likes white bread and marry them and you won't have any problems. *[If I was living in the Community, how would I get married?]* If you came in the Community and you say I want to get married and you say - 'but I like white bread' - and someone says - 'but I like whole wheat bread' - and you say - 'okay what are we going to do to bridge this gap. Let's match information.' And you match information, and you say 'Well no, information doesn't have anything to do with it. I just like white bread and you like whole wheat bread and that's it'. *[I mean people still get married even if they like different things, you know.]* Of course they can. *[But I mean how does that work?]* But they can't when certain people have taken upon themselves to go through various changes and go through various disciplines in their life, and they take it upon themselves to live according to certain disciplines - when they have someone pulling in the opposite direction - you need support. That's what soul mates are. When you have people going together, they need to support each others efforts. And they should be as much in tune to each other, as much in tune to each others goals as they possibly can be to support and help each other to attain the goal. *[You mean like if they wasn't in the Community and they liked different things, then they could get married, but when they're in the Community - then they can't do that no more, right?]* No, when you're in the Community, or when you're in a particular order - of course I know a lot of Christians and Muslims marry together, and Jews and Hindus marry together, and things like that *[Well, if they get married, then they couldn't be in the Community anymore, right?]* No, I'm not saying that. I'm not saying that. I'm telling you that I know people that are married and they have different outlooks and different religious beliefs, different spiritual beliefs and different disciplines - and they go in their opposite direction and they have children, and their children are kind of on the fringe ground of it - they don't know whether they're coming or going - their split in between mommy and daddy related to whether I'm going to be this, that or the other. And they go through a lot of confusion - but they should be themselves of course. But when you go into certain areas, you should have someone more attuned to the direction that you're going in that would be of more benefit, more support towards you attaining the goal. And there would be less static, argumentation, resistance, separateness. *[Well like, when you're in a Community and you get married, the Community provides a place for you and everything, and money and all that?]* Those are things that you have no authority or right to be going into all these little things when what I'm saying to you is you need to go and get someone that wants to live life the way you like to live it...

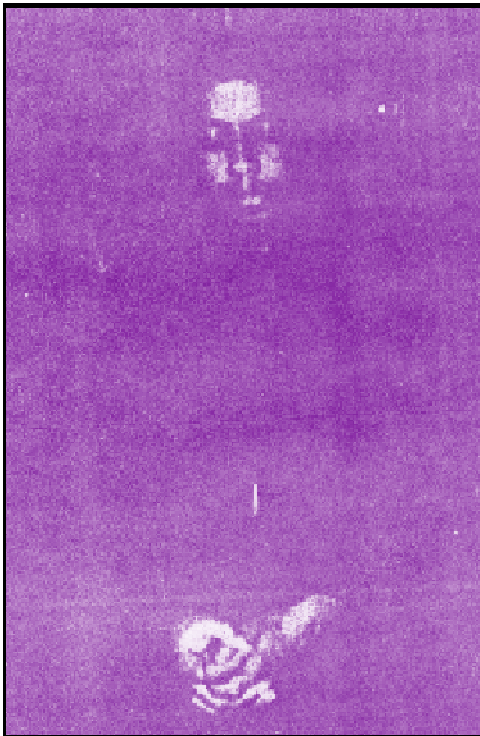

III. The Teachings

... Our purple veils ward off unwanted negative energies and represent the Veil of Truth. And that is opposed to the Veil of Illusion that so many people are under and don't even know it. The illusion that living is about material gain and that we are slaves to our emotions. The Truth is that we are everliving, everlasting souls and this lifetime is an opportunity to further advance on the spiritual path...

Part 3:

The Unveiling of Illusion

... I'm not going off the deep end.
It's just that I am doing things that people don't quite understand...

... Oh can I say
Oh will it make them lose their way
Oh will they know what I say
Oh will they go astray
Oh will they lose their way
Oh make them stay in Your way
Oh don't let them go astray

Predominating Factors

The following is an excerpt from
"The Nazir, The Community",
taken from The Book of the Order

... In preparation for initiation, the Nazir is taught to purify his body, mind, and soul. He is taught the relationship of the diet to spiritual unfoldment, and that unfoldment can not be accomplished so long as one's body is nourished on such impure food as alcohol and flesh. The wise well know that food and drink are vitally important factors in spiritual evolution. The Nazir is shown that in each epoch, a new food has been provided to meet man's evolutionary requirements. The spirit of fermentation and meat eating were introduced to further the material advancement of the race of man. As this aim has been largely achieved, those preparing for initiation are required to abstain from the use of both. No one who indulges in any false stimulus can ever fully know his true spiritual Self. As man became more material-minded, his diet consisted largely of meats; then his wine drinking increased because stimulants were necessary to overcome the deadening effects of flesh foods. Two of the predominating factors engendering fear in the human heart were the use of flesh and alcohol. By their use, man lost his spiritual Sight. They lowered the vibrations of centers which interpenetrate his physical body, centers through which only was he able to contact spiritual realms. His centers clogged, man could no longer receive knowledge from beings who were his spiritual guides, teachers, and friends. In the Age of Spiritual Enlightenment, fermentation and decay will no longer be tolerated. Man will then know the inward Light of spiritual Truth even while walking the earth in bodies material ...

Degrees

... When the student is ready, the teacher appears to impart certain information to help them to raise to a higher level of awareness or consciousness. So spirit into matter, like I told you before, spirit into matter, Breath of Life, into a physical form, body, living, functioning on this physical plane of existence. Your spirit descended into matter due to the spoken word, due to the need of that experience, that Spark of the Divine to expand and express in all forms ...Was, Is, Ever Shall Be; Truth, Light, Love; Wisdom, Knowledge, Understanding - in all dimensions, in all beings, started at a point and began to penetrate all existence, and all ideas. Involution of spirit into matter, spiritual being, essence, into physical, material existence. Spirit into matter, involution - becoming involved with matter. And evolution, evolving out of matter, going back into the spirit realm. However, involution to the point of involution being involution of spirit into matter. But along with that involution of the spirit into matter, that spirit into matter being involved in matter - is raising the level of matter of the physical.

It's almost like a dual thing. Involution into matter is bringing about the evolvement of matter. But involution of spirit into matter, has got spirit detained and matter coming to a higher degree of attunement or awareness - until spirit has done its particular work and then it begins to evolve out of matter, and return back into its spiritual essence - it's true being, on a higher plane awareness...

But of course, spirit into matter. Spirit comes into matter, it has all wisdom, knowledge and understanding. But when it comes into that degree, it's like of a higher All Wisdom, Knowledge, and Understanding... the Essence. It is a Christ, a Christ-Head. And when I say Christ-Head, I'm talking about enlightenment, spirit, pure essence, total being, Spark of All That Is, Was, and Ever Shall Be. And that Spark of All That Is, Was, and Ever Shall Be has all that is, was, and ever shall be within it, you see. But when the vibration was lowered to come into matter, it's true and total essence is beyond matter...

And those who are concerned with the symbolisms of the crucifixion, the resurrection, ascension... 'He who will gain his life, will lose it. He who loses his life, will gain it.', so on and so forth. But at certain levels - 1, 2, 3, - you're given methods to purify. 1st degree - get the experience, that's gone. You center in the 2nd degree, the 3rd degree. As you go on, center in the degree that you're centering in...

Crucifixion, resurrection - we're talking about being attached, and raising degrees, and symbolism. Spirit into matter, or say using Jesus in being born and going through a mission to raise beyond given teachings, and so on and so forth - experience, giving experience and receiving experience. And after receiving experience and giving teachings, and what have you, and those that didn't accept or couldn't accept the teachings crucified Him. And that's a crucifixion to the point of reaching that point of detaching from that which is not acceptable from a higher spiritual plane of awareness or consciousness, or detaching from error, or detaching from blocks, or detaching from attachments which feel good to you.

But, you see, the glamour, the attachments, the sensation, feels good to you - that's why you can't detach from them. And even if you feel as though 'If I detach from this, what is left in life'. Like say drinking. That was your life. That's what made you feel better. And of course, when you reached that point when you say, 'Wait a minute, that has got to go. I've got to stop this'. And that's like a life and death thought, situation - - - 'what will I do without this?'. Anybody on drugs, or say, if you like cupcakes. The point of you giving up those cupcakes, or whatever, is a very horrible situation. It's dying to the old. And that dying is like a crucifixion, it's painful. You have to use all of your strength and your energy to rise above that pain. And when you rise, you resurrect, you transcend, you go above that attachment. And when you go above that attachment, you begin to look and say, 'that didn't really mean all that much'. But it's painful. Some people can't give it up, you see. You transcend that, you overcome that particular attachment which is harmful to you. And when you overcome it, you begin to feel better. That's going beyond the withdrawal symptoms as well, DT's or whatever. And through your conditioning, you're attuned to a lot of lower energies or vibrations, thought energies, or thought vibrations. And you have to rise above that. And when you rise above those lower thought vibrations, attachments, physical affects into a higher degree, then you transcend that and begin to see a little clearer. And then you begin to see more blocks and more steps to go beyond, until you walk into the whole realm of Truth, Light, and Love, and bliss, ascension, resurrection, so on and so forward. Crucifixion, is dying to the old. Resurrection, being born again, is being attuned to the new. And then through being attuned to the new and applying to that new energy or vibration, you begin to ascend into higher degrees or levels of awareness.

So, you're going through all of this for that experiential need of course. And even to grow beyond that need. So you had experiential need, and that experiential need was pulled into mundane, physical, material existence. So then through experience, and learning through that experience, you begin to become aware, you see, that that mundane physical, material existence is not absolute. As you even knew it at one time. Because you have that higher Wisdom, Knowledge, and Understanding, and that's what's pulling you to look at certain things and experience certain things...

Building Blocks

Involution, Evolution ... involvement, evolvment ... you involute to evolute ... yin, yang ... positive, negative circle, completing the circle ... He that will lose his life, will gain his life. And he who gains his life, will lose his life...

... So at certain stages of development, you have an involutory, cyclic, karmic, experience; and an evolutionary, karmic, cyclic experience. But at certain stages, you have gone into your involutory cyclic, karmic, experience and have become involved. And that involvement will assist the evolvment of physical matter. But at certain stages, it is proper to get involved to evolve. But after the involvement, then you evolve out of the involvement'

So, on one stage, our involvement is the goal. And on the other stage, evolvment is the goal. But sometimes you get crossed up in your system, you lose direction. And you begin to be more involuted/evolved/involuted. In other words, the evolution is not towards the evolution of matter, but towards the involution of spirit. You get involved with your evolvment of matter, rather than your evolvment of spirit out of matter.

Experience - you have to learn through experience. At a certain stage, say Nazirmoreh wouldn't go through certain changes that you would go through because Nazirmoreh has been through certain things. Nazirmoreh doesn't need that experience. Then there's someone who might have not gone through certain experiences; that might have to go through certain experiences to learn and to grow through those experiences - knowledge gained through experience. So that's the involutory involvement. But there's still a part of evolvment in the involvement because the goal is to learn and grow, and to evolve the mind, the body. And you get to the point whereas you're evolving the body/mind, and the energy is being put into the evolvment of body/mind. And you stick in the body/mind, material side. And you begin to do things and concentrate all your energies into material involvement/evolvment. Say the refining or utilization, or the materialization, or acquisition of material gain, wealth, and so on and so forth. And you feel like you have reached a certain degree of attunement or awareness because of the fact that you have learned how to utilize this material, object, matter, things. But then you get stuck in the material, matter, things, in the neglect of the evolvment of the spirit out of the material plane into the spiritual realms, instead of the evolvment of material things.

Say, when spirit involved into matter, it came to a point whereas spirit into matter put spiritual energy into matter to evolve material things. And those material things went on into buildings, and inventions, and equipment, and everything else. 'Oh, we're living in a nice material state of existence, or being.' And you get to a certain point whereas, that material involvement just continues, which it's doing or has done. It continued to a point of getting destructive because it went beyond it's balanced state. It got to the point where that energy had to be withdrawn from those material concerns, to go back into a sublime state of spiritual attunement, out of the energy that it has taken to raise material, so on and so forth.

"The Illusion is that living is about material gain..."

Over and Over

So you go from one plane to another plane to experience and hopefully - and that's' how it is, hopefully through experience and learning, find out that it's really not all you thought it was. And then you say, 'Oh well, I've gone through this experience', you know, 'I've felt it, I know about it. I know it's time for me to rise back to the higher planes'. That descent into matter - going back up into heavenly realms, after experiencing all that other nonsense. But see, the only thing is, some people get stuck, they get trapped, they get caught in it, you see. "I like this, I don't like this, but I like that. This ain't right and that is. Oh this hurts, oh this is painful." But still you get trapped, attached, and you keep going through it over and over and over and over and over and over again. They get worn out, they get weak. They just can't go any further. They don't have the strength to go on because they've gotten weakened by all that nonsense. And they forget. They begin to lose consciousness of the higher planes. You forget where you came from. You forget the higher planes, and just live in the earth and don't go anywhere... It's hard. Take care of yourself.

“...and that we are slaves to our emotions...”

Pains of Renunciation

... related to the lack of understanding of those of the world that will not understand the direction that you're going in. And you have to suffer the pains of withdrawal. You have to have withdrawal symptoms, or you have to suffer the pains of renunciation. You have to suffer the pains of detachment, of course. You know, because a lot of times you get attached, you know, to certain things that might seem good to the body or the mind, but as far as your higher spiritual development or attunement is concerned, it is not very conducive, you see. And you come to that realization and you have to kind of separate from it. But you have to keep on going. And a lot of times, like I'm saying, in this world, you go through those sufferings and those changes due to the lack of understanding of the world... well that's the crucifixion anyway, if you want to use that terminology. You know, that pain to withdraw, to rise above, to transcend, to transfigure. You see, because you're in an involuntary cycle, of course. You are spirit in matter. And spirit being in matter, you have brought on a lot of mundane, physical, material consciousness... Any way - wisdom or the woe, the bitter or the sweet...

Strength

That's your karma, that's your experiential need. And when I say your karma or your experiential need, sometimes you go through difficult situations because you need to go through difficult situations to be strengthened. You need strength, you see. And sometimes, the stronger you are, the more the situation needs to be there to make you stronger, you see. Just like doing push-ups. You do 10 push-ups, you're alright. But you want to do 20, you see. So you have to do 20 push-ups to get to that 20 push-ups. And then 30, and then 100. But each time it gets a little harder. But along with that little hardness, you get stronger, through going through the harder changes. And some people have experiential needs to gain strength. And a lot of times that strength is to assist you to go forward, or to help others through your strength, through your assurity, to help support.

A believer turns into a knower, you see. It goes beyond belief into knowing. A true believer is one who is on an experiential level to become a knower. And that knower will be in a position to assist through a direct knowledge, through experience...

*“The Truth is
that we are everliving, everlasting souls and this lifetime is an opportunity
to further advance on the spiritual path...”*

Conscious Subconscious Christ Conscious

... you got more or less fixed into that body/mind state of awareness or consciousness, say psychologically - your conscious mind and your subconscious mind. You know how they talk about things that are in your subconscious mind, 'It's been planted in your subconscious mind'. But then you have your consciousness mind. That is your day to day life/mind that you walk and talk and move and use, information, and what have you. Conscious mind is things that have been stored in there throughout the years, and the years of education, and experience, and programming, and conditioning. And you're acting on a conscious level... the mind behind is the subconscious mind.

So you have the subconscious mind attuning to the conscious mind. And then you have the conscious mind moving the physical body. But then you can go from the physical body to the mind, thinking. And then from the mind to the subconscious, and then from the subconscious to that innermost truth - beyond conditioning and programming. It's not what you learn traveling in the body. It's what you knew from beginningless time ...

But still you have conflict, resistance between the conditioning, programming of the subconscious mind - what's been fed into it, your computer, you see - and then the mind, and then the body. All of it has created an existence. Well, not created, but brought about an attachment and existence of it's own... imbalance. No balance, you see. But still you reach a point whereas you're trying to be a little more balanced, you see. You're trying to walk with your feet on the ground, your head in the clouds - a little more balance. You're trying to be balanced through your spiritual awareness and your true inner being attunement functioning on this plane of existence. And it has your mind thinking right. It has your subconscious putting in the right energy into your body. And all your movements are right due to the fact that the body has become more aware of the mind, has become aware, has become aware of the life energy...

It might hold on to the good things, but a lot of times you don't even know what's good. Because what's good is of this world, basically. And it's what people have become more or less attached to and programmed to. You might say this is a good piece of pie, or this is a good drink, or this is a good pill, or this is a good cigarette, or this is a good meal, you see, or this is a good car. He might kill him self with any of them, the body, you see. So it's like 'Well, what is good?', you see - conditioned and programmed to what is good. Now you say making a lot of money is good. You know, eating good, going out, dining and wining - all this is good. That's the level of consciousness that you're traveling on. But then someone would say, 'well, what's good...'. Beauty is in the eyes of the beholder. "What's good to me is just staying at home. I don't have to run around like that'. Well, someone would say, 'Look, you're a vegetable, you're dead'. But they're killing themselves in the process of

doing all that they're doing. And this is a good life as far as they're concerned. They might have cancer, heart troubles, and whatever else. But to them it's enjoyable, you see. And you can't convince them otherwise. Even when they get a heart attack or cancer, or what have you, they say, 'Well doctor, what caused this?' 'Well, it was from doing this too much, or you did that too much, or you went overboard with this, or you went overboard with that. Why don't you kind of cut down a little bit'. 'Why do I weigh 400 lbs.?' 'Well, because you ate a little too much. Why don't you cut down a little bit.' But people get so attached, they can't cut down, you see. One of the most recognized psychologists, Sigmund Freud - you ever heard of him? Sigmund Freud died of lung cancer from smoking. And it was told to him, 'you're going to die of lung cancer if you don't stop'. And it was very painful to him. And he told the doctor, 'Well, if I have to give up smoking, I just might as well die, because that's the joy I have in life. It's the only thing I have left to enjoy, so I may as well die.' And he smoked himself to death. He was attached to that, you see. And that's how it is.

But that inner call, and that experience, and that inner call telling you, you can go beyond this. You can return, return back to your true essence, you see. Because you don't realize that this illusion is limitation. And you're traveling in a world of limitation, you see. But if you attune yourself to your inmost being, even traveling in this world, you will be able to contact your higher essence-mind-being, and be able to expand within this physical, material body. That's what Jesus did. Jesus became balanced to the point of becoming a living, walking, talking, in the physical, material mundane plane of existence - a true Christ-Consciousness. Jesus became aware, awakened to the true Spiritual Essence, and was able to live according to that true Spiritual Essence in this walking, talking, living, physical, material life existence. And that's what your true Self is directing you towards, of course, beyond the body/mind conditioning and programming. But still like I say, you're living in a thought atmosphere. You're living in an atmosphere where people don't understand these things. They're not attune to them, and they will think contrary. They'll think that you're going out of your mind, you're going crazy. And it gets to a point sometimes that you just can't talk to anyone and everyone. That's another part of the understanding. You just can't talk to anyone and everyone because everyone and anyone is not traveling on the same plane of consciousness you're traveling on. And even talking to them, they might try to discourage you and everything else. And you have to express or exude or to put out more energy to try to convince them of something that they're not at a degree of awareness or consciousness to be convinced of, or to understand, or relate to. And that could bring about anxieties and frustrations within your being.

So, you get to, just like you say, you're living in a thought energy here. You're living in the neighborhood, you're living in this city, you're living in this country, you're living on this street - and in different areas, like attracts like. You have people of like consciousness in different areas, you see. People on the westside, people on the southside, people on the northside a little different, people out in Metairie... So, as your consciousness expands you will go into areas that are more conducive to the support of the expansion...

Breath of Life

... You have a lot of people in mental institutions that are psychically developed and in tune. But they cannot convince anyone else of that, you see. Because this is what's known as abnormal in this world. It's abnormal, but actually of truth, it's more normal than the changes people go through in this world, because this world is a limitation. We're limited by this physical, material existence. But the higher understanding, related to a higher mind, a higher spirit, or soul self, mind, or spiritual self, is attuned to higher energies. We could talk to angels, or anything else, if we don't let other things distract us more. You have saints, they say the saints could talk to the angels, and they talk to the Creator, and everything else. They hear voices and everything else. That's good, that's a saint. 'He's in religion, he's a saint, we'll accept that, we'll make him a saint'. But not just an average person. And actually everyone on this planet has that ability. Everyone, that's everyone's right, everyone's True Spiritual Self. Because the Breath of Life is in all beings. And the Breath of Life is the Creator...

The following is an excerpt from
"Reverend Baba Swamiji Nazirmoreh's Travels through India
January/February 2002"

You receive that which you are, according to the plane of consciousness you are travelling on -
your glimpse, your sight, your vision, your version, your view
Swamiji Nazirmoreh (ABRD)

Below... Reverend Swamiji sits in communication, in a temple grounds spiritual gathering area in Rishikesh at Traveni Ghat, with a transcendent ascetic (which some may call mentally imbalanced, insane, a mad man - - - which the Reverend (ABRD) does not. Beauty is in the eye of the beholder.) that the Reverend beckoned to come sit with the Reverend. This union opened the doors for spiritual seekers within the area to gather around and receive darshan from the Reverend Baba Nazirmoreh (ABRD) - completing the circle.

Subhash thought that Swamiji was unnecessarily interacting with an insane person. Swamiji related to Subhash that that was why the being needed to be interacted with. - that was the reason for Swamiji interacting with the being.

The Name

... And all those names related to the universe, spiritual existence, have an energy, a vibration, just like everything else - music, colors, sounds, stones - everything has an energy. And you can attune to different energies, different words, sounds - that will more or less stimulate different centers within your consciousness and help you to recall, or transcend, to open up, or some to close up. So, the name, different names, numerology, psychology, and everything else. Different names have different energies. The spelling of names have a numerical value. That numerical value has an affect upon you consciousness, your energy. Or related to chanting different names, meditating on different names, different sounds, have a different affect upon your mind. So when you're traveling on one plane and you're trying to work and do something on the physical/ material, you're receiving information that will assist you in that effort. And when you're trying to go into a deeper level, plane of awareness or consciousness, then you will receive teachings that will assist you in different names, in different chants, and things like that, that will help you rise from physical, material, mental into the spiritual realms where you leave all that behind...

Names and what have you, say Jesus, and say Christ. And that's not the real name, and that's not the real title, and that's not the real birth. But it's still the language, and it's still the time that you're more familiar with related to where your attention is attuned to at this time... A birth date, and so on and so forth, is just something to hold the attention of those who are more or less inclined to pay attention to certain symbols and certain objects... Like you say Jesus. It wasn't Jesus. But that's the language. So we say we're going into languages and everything else. And people will fight over Jesus. But that's not it. That's a corruption of it, and it's in a different language... And Jesus the word, didn't even exist at that time. But people will fight over that and say. 'Oh, Jesus Christ, the Son of God', and so on and so forth. But Jesus wasn't speaking Greek at the time, or Jesus spoke a little. But Jesus was speaking a different language and the people that Jesus was speaking to, were speaking a different language as well. But now we say Jesus and we say Christ. And someone says something about Christ, and if you don't say Christ, they're angry with and suspicious of you...

But even when you go into symbology, you go into numerology, you go into science, you go into esoteric knowledge. Esoteric is inner knowledge, inner teachings. And you have exoteric knowledge, outer teachings. '...the things that I do, you will do better'. And, '... this is for you of the inner, and this is for the masses. What I'm telling you, I'm giving this to the masses, the people that's around here talking.

I'm telling them one thing because that's their experiential need. That's what they've been attuned to. That's what they need to do in their lives. But I'm telling you another thing, because you're on a different level. You have an experiential need. So I'm going to give you some deeper teachings, more spiritual teachings, even more intellectual

teachings, because that's the level and that's the degree you're on. And I've taught you and raised you to that level and that degree. They're common people and I talk to them and give them enough so they live their life peacefully and happily from day to day. And they do what they can. But you're ready to evolve and go into higher degrees of spiritual attunement or awareness beyond the mind. And I'm going to give you information and teachings that will assist you in that area.'

So even with names. You go from Jesus and you go to Christ, you go to _____, to _____, to _____, and so on and so forward. *[For further information, please inquire as to joining the Order.]* And you say, Jesus the Christ, or the Savior, or so on and so forward, did this and I will do better. All of these different symbols are the symbols of being Emanations of the Divine Essence. You see, all of you are Emanations of the Divine Essence. "I say you are all Gods." That's right in your Scriptures. Of course in Scriptures, you look for certain books that should be there - they're not there. They say look in the book of this, look in the book of that, look in the book of this, look in the book of that - and you don't find them in there, in the Bible, because they have been taken out. And they have been taken out and some people call them esoteric teachings and metaphysical teachings or Apocrypha, so on and so forward. That information is there and those who have attuned themselves to receive that information, certain times and periods receive that information...

Words

... Different languages, generally, they're all saying the same thing, just using different words. And a lot of them get more or less trapped in words, because that's their experience that they have to work out of. But, they'll get back...

Beyond Words

... Well, it's an energy, but God is an energy, if you want to use those words. But those are just words that we're using to communicate with each other. I can use one word and you can use other names and languages, and what have you. They have energies and vibrations. But the True Essence is beyond the body, beyond the mind, and what have you. And there are no words that can express that absolutely at this point...

III. Postlude...

... We are all taking
a course in Spiritual Education
and
everything that you encounter in life
is a test...

The Responsibility

... and we should die every day. You know... die, crucified everyday and be resurrected in to a new being, higher and higher and higher, until you reach the throne. Not that you're going to try and crash the gates of heaven or anything else. But it's your... what would I say ... your responsibility to expand and to grow beyond what you are, into something better and better and better and better. That's what education and everything else is about - to help you expand your consciousness.

Oh where do your ears hear to
When you hear to
Oh where do your eyes see
when you see
Oh where do your songs go
When you sing
Oh where do your steps go
When you walk on
Where do your moans go
When you moan
Where does your heart go
When you feel the storm
Can you walk on
Oh do you walk on
Oh can you be strong
Oh when you see the wrong
On can you be strong
Oh when you see what is right
Do you walk on in that light
Oh can you be strong
When you see all those things
That are not of you
That are not of me
Oh when you see your misery
Oh can you be strong
Oh when you see, you feel, you hear
All those things that are wrong
All those things that kept us away so long
Let us walk on
Oh to where we belong...

excerpt from
Chant-Prayers to All Thru Nazirmoreh (1970-1981)

Effective Collective Force

... Collectively working together as physical/material beings, you see, or physical material bodies, you know, on a physical/material plane of service and work to do in that area - activated, motivated, or supported, or realized by their True Inner Being, True Inner Oneness. But still that True Inner Being, that True Inner Oneness has to be expressed on a physical, material plane of existence to be noticed and recognized to give stimulus, you see. To give stimulus and to give experience to activate and motivate other physical, material, body/mind consciousnesses to go within and to attune themselves to their Inner Being.

But these groups are here, here, here, and here. You have different dimensions or planes throughout the universe. After that group has reached a certain degree of collective effort and cohesive togetherness, then they are attuning themselves to other groups on a higher plane. And even as attuning on a higher plane, they begin to merge on the lower plane as well, because it's a completion, a circle is being made, a balance. And they are aware or attune to other beings in physical/material body travel, traveling. And of course they begin to work together until they become an effective force, an effective force. Effective collective force to help dispel some of the negative energies...

Merging

... you reach a degree in which you say, 'I'm not involved, I'm not involuted. I'm not involuted and not individuated. I've reached a level of consciousness by knowing that I'm a part of All That Is, Was and Ever Shall Be. I am a part of the universal wholeness and oneness of all existence, and all things - Truth, Light and Love - Wisdom, Knowledge, and Understanding. I'm attuned to that', you see. But still you're traveling in the body on the physical/material plane of existence. So even the realization and the knowing of that and reaching that degree of awareness, you're still bombarded by thought energies and you're still struggling, you see. You feel beautiful and very much attuned, at One. And then the energies get you bombarded - because you're still centering in 'me' to a certain extent. And that's a part of the ego too.

Then you reach a certain degree of awareness whereas you feel the need of knowing to unite with your brothers and your sisters, beyond the body, beyond the mind, beyond the physical, race, nationality, sex, and so on and so forth, and the True Spiritual Love, one toward each other. You reach a degree of beyond the division, and attune to the Oneness of All. We are One. I'm not alone. So you reach that degree and you begin to work with your brothers and your sisters toward a higher goal more spiritual attunement or awareness or service. So as you work and as you meditate, and as you experience, and as you serve - then you create a stronger force, you see. Because you have risen above the division, in a degree.

You attuned yourself to the Oneness, in a degree. And that Oneness gives you a little more power, a little more force beyond your selfish nature, your selfish programming. "First be true to yourself, then you can be false to no man". You understand what I'm saying? That's a degree, that's a degree of awareness, or another degree of service. You believe yourself, then you believe other people - you are attuned and attracted to other people and energies that are traveling on the plain of consciousness you're traveling on.

And the service and the collective work and the collective effort is making a wider hole within that thought energy, that thought atmosphere. And it pushes a hole or opening in the massive thought energy or thought atmosphere, where more spiritual energies or power will come through that degree of negativity. So then you reach that degree and you become a little more spiritually attuned, a little stronger. You have a little more support. You are aware of the support, you are attuned to that support, you feel it. You feel more secure, more

strong and powerful - but keep it positive, of course. When I say positive - Love, keep that Love, you see.

You reach that point whereas, pockets here and here and here and here and here, collectively working to push a little hole in the thought atmosphere that is not conducive to the furtherance of man's spiritual development and consciousness expansion...

So you get within a little pocket, that group. And from there you have risen to a point whereas you say, 'Yes, I know it's more than just me, that I should be concerned about - it's existence, it's my brothers and sisters, within the group. It gets like that. Even though you're working hard, collectively for all existence and all creation, you get centered in the group. And then the group goes from a 'me' to a 'we'. But you get stuck in 'we', too. You see what I'm saying? And you get whereas you say, 'Oh, my group is the group, my way is the way. My group's way is the way. And everybody else is not because we have it all, you see. And at that point you get kind of stuck, you get kind of crystallized because you have to rise beyond that group into the All.

And those groups should merge with other groups to help make the opening bigger, you see. To raise beyond that into the All. In other words, to make that opening, through collective union - not me, not we, but All That Is, Was, and Ever Shall Be. And to open that whereas the whole opening will fill the whole earth and all of the beautiful energies will descend on earth, and it won't be that 'I don't know, I'm not sure'...

The Choice Continues

Now... well I'll talk about something else - related to your different planes of awareness, your consciousness, your different states of being - related to your physical, mental, spiritual, astral, etheric, and all of that. Like you say 1st, 2nd, 3rd, 4th, it's all the way up to the 7th heaven. Your different states of consciousness... As a man thinks, so is he. As to where you're thinking, the plane of consciousness you're traveling on, you're pulled into those experiences. You think positive, you have positive experiences. You think negative, you have negative experiences. But you reach a point whereas you could view and see all of it without being absolutely and totally swayed by any of it. That's when you're at a balanced state of consciousness, where there's no good, there's no evil. There's no hot, there's no cold, light/dark, whatever. And that's into a blissful state. And that's beyond heat and cold, good/evil, sweet/bitter, and so on and so forth...

Free To Be

... Everyone almost made it. You wanted to but you just couldn't quite. You couldn't go out of your mind. You couldn't go beyond your mind. You couldn't go beyond your conditioning, your programming, your education, those little things that have been placed within you, subjective/objective. But you can do it, just let go, be true. Go beyond the body, the mind, the programming, conditioning, just open up. Flow. Forget about the music that you've been taught, what sounds good, what doesn't. Anything that you have thought to be polite and proper - feeling, sounds, thought... Now, would everybody like to try that? Just open up. Just like you're out in the universe, cosmos, spiritual plane. You're by yourself. No one else is around. And you're free to be that which you truly are. All in All. So... Don't let anything stop you from being free.

Oh and the Sun said to little flower
Rise go on
Little flower you must go on
And the Sun said
Rise little flower
You must go on
And little flower looked up at the Sun
And little flower spread forth his
wings
And flew to the Sun
And little flower became One with
the Sun

Peace and Blessings Nazirmoreh (ABRD),

I just wrote a long e-mail that was somehow lost. This is not my favored medium for communication; yet i suppose it is the best in light of the move of the Veil of Truth from Ponce de Leon Street. There is a saying that you don't miss your water until the well runs dry. The Veil of Truth had become an institution in New Orleans which many will miss.

There are many things that have taken place in my life over the last five weeks. The most significant has been the passing of my Mother on November 6, 1999. We did the Homecoming celebration on Friday and Saturday of this past weekend. It was very beautiful. My Mother was 80 years of age and had 53 grand, great-grand, and great great-grand children, all from five children. I give thanks.

During the week of the retreat, my Mother was in the hospital for two weeks in intensive care. It was the primary reason that I did not attend the Nazir Monastic Community retreat. One day i will visit.

Thanks to Nazirmoreh (ABRD) for the services of the Nazir Monastic Community and the many blessings bestowed on the New Orleans community. May Nazirmoreh (ABRD) continue to keep us in love and prayer.

Nahziryah Monastic Community Path of Mystic Enlightenment The Nazir Order of the Purple Veil

*Blessings and Thanks to our Spiritual Teacher, Founder and Director of Nahziryah Monastic Community –
Reverend Nazirmoreh (ABRD)*

Many paths - One goal. Many names - ONE DIVINE CREATOR, Source of All That Is. Universal Consciousness. Highest Spiritual Evolution. Our Order is the Nazir Order of the Purple Veil. Purple is a color of the highest spiritual vibratory rate. This is the color of the age of enlightenment, the age of universal consciousness, the age which the world is now embarking on. Our beliefs, our way of life are founded in Truth. Truth which is beyond any one religion. Truth which is found in all religions. We align ourselves with That which Is.

What is our religion? - all of them. Where are we from? - everywhere. We strive to transcend all limitations. We offer you a glimpse of this truth... We are all from the same place, we are all from the same source. The Creator is our father and mother, the universe - cosmos is our home. We limit our consciousness and understanding when we do not take our birthright, as Beings of the Divine Essence of All That Is, Was and Ever Shall Be. Our consciousness narrows when we crystallize ourselves in the consciousness of being from a country, a state, a city, a street, a house, a spot and so on. *We are not these bodies.* We expand our consciousness and our understanding when we align with the higher Truths of Being.

In our quest for spiritual attainment, we harmonize the physical, mental and spiritual aspects of our being - to bring it into "at-one-ment". We live a simple, monastic, community life. We reside at our monastery; Nahziryah Monastic Community, Retreat for Meditation and Holistic Living, where we do organic gardening to help sustain the Community's dietary needs. We work hard, study, meditate and our diet is vegetarian-vegan (non-dairy). To support the Community and the effort toward consciousness expansion and further spiritual development throughout all existence, - in truth, in light, in love, wisdom, knowledge and understanding, (may peace prevail on earth as in heaven), we make and offer art crafts, as well as metaphysical/esoteric, spiritual literature of all faiths, recordings and meditation supplies. An initiate of the Nazir Order of the Purple Veil wears all purple monastic garments at all times, and all live-in members of Nahziryah Monastic Community; brothers and sisters, dress uniformly - according to like gender. You will find live-in members of Nahziryah Monastic Community and our Order very seldom travel alone, never engaging in frivolous talk. We are reclusive.

A true member of Nahziryah Monastic Community and the Nazir Order of the Purple Veil, will first, foremost and always proclaim Nazirmoreh (All Blessings and Respect Due) as his or her Spiritual Teacher and Guide. Nazirmoreh (A.B.R.D.) nurtures us in a spiritual and universal love for all beings; for all are fellow travelers on the spiritual journey. With an open heart and far reaching vision, Nazirmoreh (A.B.R.D.) guides the Nazir children of light onward and upward - to embrace the All in All. Who are *these* children of light? Those who would choose, those who hear the call and have come to give their All...BEHOLD THE ONE IN ALL.

In Truth, In Light, In Love
Peace be with you

MAY PEACE PREVAIL ON EARTH

Reverend Baba Nazirmoreh meditating and speaking
at market in India - 2002

"You get what you are, you get what you pay for. What you are is the plane of consciousness you're traveling on. You get according to your experiential need, related to your level of consciousness or degree of awareness. The pay is the effort you put into utilizing the information received that is conducive to your higher consciousness expansion and further spiritual development."
